## U. S. REFUSES TO YIELD ON ATOMIC VETO

### Fighting Continues In Java

#### DUTCH ACCUSED OF USING JAPS IN THEIR RANKS

Indonesian Republicans Said  
Being Pushed Back  
On Three Fronts

BATAVIA, July 23—Dutch gov-  
ernment forces, accused by In-  
donesian Republicans of using  
Japanese soldiers in their ranks,  
advanced in many - pronged  
drives toward key centers in the  
Dutch East Indies today.

Broadcasts from the Repub-  
lican radio station at Jogjakarta  
told of fresh amphibious land-  
ings and progress southeast of  
Bandung along the road and  
railway leading to Jogjakarta it-  
self, the nationalist capital.

THE LATEST Republican  
army communique said:

"Dutch troops driving south-  
ward from Soerabaya occupied  
Lawang, 12 miles north of Ma-  
lang and now are approaching  
Singosari, eight miles north of  
Malang.

"Indonesians are advancing on  
Semarang from the west. They  
made headway and succeeded in  
nearing the outskirts of the town.

"Fifty Dutch bren gun  
carriers and tanks are pressing  
on in the direction of Tasika-  
malaya after occupying Tjita-  
lengka. Dutch planes bombed  
Garot, 20 miles southeast of  
Bandung, machine - gunned a  
hospital and later bombed and  
machine-gunned Lelas, a few  
miles from Tjitalangka."

Maj. Gen. Boeng Tomo of the  
Republican army was quoted by  
the nationalist radio as saying:  
"We must attack the Dutch  
(Continued on Page Two)

#### SECRETARY SAYS OFFICERS OF CIO UNION ARE REDS

WASHINGTON, July 23 — A  
woman union secretary and  
member of the Communist party  
charged today that 16 of the  
top 30 officers of the Winston-  
Salem, N. C., local of the CIO  
food, tobacco and agricultural  
union are active Communist party  
members.

The accusation was made be-  
fore the house un-American ac-  
tivities committee by Ann  
Mathews who served as record-  
ing secretary for the local and  
as treasurer for the Carolina re-  
gional Communist organization.

She listed 16 members of the  
union's executive board as "def-  
initely Communists," four others  
who "may be Communists" and  
the remaining ten as having no  
connection with the party.

The witness estimated there  
were 150 Communists in Win-  
ston-Salem. She reported that  
the local Communist party re-  
ceived \$100 a month from na-  
tional headquarters.

#### ONE MAN'S OPINION

By Walter Kiernan

The National Institute of Di-  
aper Services warns that the nu-  
rery produces many a neurotic.  
This opens a new field for the  
psychoanalyst with a crib.

The evidence is that a man  
who was improperly rigged as  
a baby grows up with the feel-  
ing that he is slipping—or that  
something is.

This produces the condition  
known to modern specialists as  
"diaper-dizzy".

But it's maddening to realize  
that Hitler might have grown  
up quite normal with a change  
in baby-tenders—or at least a  
change.

Because of him we're still try-  
ing to figure out how to get one  
world—without one boss.

Anyway the word of the di-  
aper institute should be taken as  
authoritative—it is practically  
the Sorbonne of the small fry.

PRESIDENT of the Indonesian Republic, Achmed Soekarno  
(left), and Vice Premier A. T. K. Gani, appear together during  
broadcast in Batavia before outbreak of hostilities with the Dutch.

### 40 to 50 Feared Dead In Berlin Explosion

BERLIN, July 23—Six bodies  
were recovered today within a  
short time after a powerful ex-  
plosion wrecked security police  
headquarters in the Soviet zone

of Berlin. Early reports indicat-  
ed a possible casualty list as  
high as 40 or 50.

Eight injured persons were  
taken from the ground floor soon  
after the blast, which reports  
said might have been touched  
off by anti-Soviet agents.

Fire swept through the ruins  
immediately afterward, ham-  
pering rescue efforts and in-  
creasing fears that the death toll  
may be raised. Other victims  
were feared trapped within the  
debris.

Several high department  
chiefs were believed among the  
dead.

It was impossible immediately  
to ascertain casualties in the  
two upper floors of the building.

The explosion originated in a  
storeroom where confiscated ex-  
plosives were housed.

In addition to the anti-Soviet  
theory of responsibility, authori-  
ties said the blast might have  
been an act of revenge on the  
part of former Berlin policemen,  
many of whom were dismissed  
in a "purge" last month.

#### TRUMAN VISITS SENATE

WASHINGTON, July 23—Pres-  
ident Truman broke precedent  
today by entering the senate  
chamber where he served for 10  
years and taking his old seat for  
a brief visit with his ex-col-  
leagues. The President's sur-  
prise action came at the close of  
an informal luncheon with Re-  
publican and Democratic sena-  
tors in the capitol.

### OFFICIALS STILL DIFFER OVER BABIES' DEATHS

MASSILLON, O., July 23—The  
breach between authorities over  
how two infant girls met their  
deaths in Massillon city hospital  
June 6 widened today after a six-  
year-old boy changed his story  
of what happened.

Mrs. Roger Gue said that her  
son continued to give different  
versions although Massillon pol-  
ice chief Stanley W. Switzer closed  
the case when young Roger  
first admitted playing with the  
babies.

The chief refused to partici-  
pate longer in the 48-day investi-  
gation and accused Stark coun-  
ty prosecutor D. Deane Mc-  
Laughlin of "changing his moth-  
er's mind." The prosecutor has  
maintained that the tiny girls,  
about 10 weeks old, were mur-  
dered.

Col. Albert Boyd, who set the  
world's record of 623.8 miles per  
hour on June 19 in an Army jet-  
propelled P-80, told reporters he  
has no doubts that planes will  
reach supersonic speeds in ex-  
cess of 750 miles per hour.

Boyd declined to reveal wheth-  
er the U. S. Army Air Forces is  
planning an attempt on the speed  
record, but he said "personally,  
I won't attempt another record  
flight."

He pointed out that the air  
forces has adopted the policy of  
giving different pilots the chance  
to crack records and not "glori-  
fying" any one flier.

LEADER of Dutch forces, Lt.  
Gen. S. H. Spoor assures the  
world that his troops are not  
launching a war against the  
Indonesian people but only  
against "those elements who  
try to sabotage the sincere im-  
plementation of the Linggadja-  
ti pact."

### U. S. TO CHECK ON TESTIMONY

Kravchenko Story Turned  
Over To Government  
Agents For Action

By International News Service  
Rep. Thomas (R) N. J., re-  
ported in Washington today that  
testimony of Victor Kravchenko  
charging that Russian officials  
in the United States had stolen  
American airplane and submar-  
ine secrets will be turned over to  
government agents for further  
action.

Thomas revealed that the  
committee secretly was given  
the names of Russians engaged  
in the espionage work. He  
said that these and the record  
of Kravchenko's testimony in  
full will be delivered to the  
FBI and Navy and Army au-  
thorities.

KRAVCHENKO charged that  
the Soviet purchasing mission  
with which he served in New  
York, had obtained detailed  
plans, photographs, blue-prints  
and notes on U. S. planes during  
the war. He asserted that the  
material was delivered person-  
ally to Moscow by a Soviet official  
enjoying diplomatic immunity.

At the same time, the United  
States was reported still willing  
to leave the door open for par-  
ticipation of Russia and her satel-  
lites in the Marshall plan for  
Europe's reconstruction as well  
(Continued on Page Two)

### Pilot Who Holds World Speed Record Says Man Will Go Faster Than Sound

WASHINGTON, July 23—The  
pilot who holds the world's  
speed record predicted today  
that man will go faster than  
sound—and "not in the distant  
future."

Col. Albert Boyd, who set the  
world's record of 623.8 miles per  
hour on June 19 in an Army jet-  
propelled P-80, told reporters he  
has no doubts that planes will  
reach supersonic speeds in ex-  
cess of 750 miles per hour.

Boyd declined to reveal wheth-  
er the U. S. Army Air Forces is  
planning an attempt on the speed  
record, but he said "personally,  
I won't attempt another record  
flight."

He pointed out that the air  
forces has adopted the policy of  
giving different pilots the chance  
to crack records and not "glori-  
fying" any one flier.

The famed Army test pilot, a  
native of Asheville, N. C., who  
has been flying since 1927, said  
that he doesn't expect his speed  
record to stand "very long."

He explained that both the  
United States and Great Brit-  
ain are developing planes now  
that will go faster than the  
623.8 miles per hour reached  
by his P-80.

Boyd declined to reveal wheth-  
er the U. S. Army Air Forces is  
planning an attempt on the speed  
record, but he said "personally,  
I won't attempt another record  
flight."

He pointed out that the air  
forces has adopted the policy of  
giving different pilots the chance  
to crack records and not "glori-  
fying" any one flier.

BOYD SAID that he had "no

### BRITISH SHIP SUNK BY BLAST IN HAIFA PORT

11 English Troops Injured  
In Other Violence  
In Holy Land

JERUSALEM, July 23—The  
British ferry ship "Empire Life-  
guard" was sunk and at least  
11 British troops injured today  
as the Palestine underground in-  
tensified its campaign of vio-  
lence.

A mighty explosion, which  
shook the North Palestine port of  
Haifa, tore a 48-square-foot hole  
below the waterline of the trans-  
port used in shifting Jewish im-  
migrants between the Holy Land  
and Cyprus.

Within a short time, the ship  
settled beside the quay where  
300 Jewish refugees had just  
been disembarked. Forty or 50  
other immigrants, who had  
just been brought from Cyprus,  
were aboard when the blast oc-  
curred. No one was hurt.

AN OFFICIAL announcement,  
meanwhile, said that one British  
officer and six soldiers were in-  
jured when their truck was  
blown up near Rishon Lezion, in  
the Tel Aviv area. One of the in-  
jured was in serious condition.

The mine, which was electric-  
ally detonated, consisted of two  
four-gallon gasoline cans filled  
with rivets.

In the Mount Carmel region,  
four other troops were in-  
jured when a land-mine knocked  
their military vehicle into a  
roadside ditch.

HAGANAH, so-called Jewish  
defense army and most moder-  
ate of the Palestine underground  
factions, was believed responsi-  
ble for placing the explosive  
charges which shook the ferry  
ship.

Jerusalem observers pointed  
(Continued on Page Two)

### LEGION URGES REVISIONS IN UNITED NATIONS

WASHINGTON, July 23—The  
American Legion today called  
for reorganization of the UN se-  
curity council and world court,  
abolishment of the veto in ag-  
gression cases, rigid control of  
atomic weapons and establish-  
ment of a strong world police  
force.

The Legion proposed to con-  
gress that these recommenda-  
tions be carried out in adoption  
of three "tyranny-proof" amend-  
ments to the United Nations  
charter.

The recommendations were  
contained in letters dispatched  
to each member of congress by  
John Thomas Taylor, national  
legislative director of the Amer-  
ican Legion.

WASHINGTON, July 23—The  
senate appropriations committee  
boosted the funds for President  
Truman's overall foreign aid pro-  
gram by 177 million dollars to-  
day, placing the big supplemen-  
tal appropriation bill in position  
for action before adjournment  
Saturday.

The measure is one of the keys  
to whether congress can com-  
plete its work this week. The  
senate committee put back in  
the bill 175 million dollars cut by  
the house from Mr. Truman's  
request for relief in occupied  
Germany, Japan and Korea. The  
house had allowed only 550 mil-  
lion dollars of the 725 million re-  
quested by the war department.

The senators made the restora-  
tion by granting 625 millions in  
cash and 100 millions in contract  
authorization.

He said pilots flying combat  
aircraft should be between 20  
and 35 years old.

### Pickaway Farmers Face Big Wheat Crop Loss As Freak Weather Continues

Preview performance of late  
Autumn, presented on the Cir-  
cleville stage Tuesday night, is  
scheduled for a repeat perfor-  
mance Wednesday night.

Farmers throughout the Cir-  
cleville area were more worried,  
Wednesday, about the excess  
moisture damage to wheat crops  
than about the freakish weather.

Heavy damage already has  
been inflicted on wheat crops,  
and Larry A. Best, Pickaway  
county agricultural agent, said  
the losses will be heavier un-  
less the weather turns warm  
and dry—and stays that way  
for awhile.

THE HIGH temperature read-  
ing Tuesday was 71 and the mer-  
cury plunged to an unseasonable  
low of 47 degrees early Wednes-  
day morning. The reading at 8  
a. m. Wednesday was 57. Sev-  
eral light showers occurred  
Tuesday afternoon and night.  
Shortly before 4 p. m. Tuesday  
there was an unheralded and un-  
predicted shower. Under azure  
skies and with the sun beaming  
the rain descended for approxi-  
mately 10 minutes.

The official forecast said  
temperatures will remain cool  
—without rainfall — through  
Wednesday night and Thurs-  
day until in the afternoon  
when the mercury is scheduled  
to rise.

MEANWHILE farmers were

### POLAND WILL NOT GET FOOD

State Department Announces  
Poles Can Get Along  
Without U. S. Help

WASHINGTON, July 23 — The  
state department announced to-  
day that Poland will not share in  
the 350 million dollar American  
relief program for war ravaged  
European nations.

The announcement was made  
following a report from a mis-  
sion which has studied the food  
and relief situation in Poland.  
The mission was headed by Col.  
R. H. Harrison, special assistant  
to the secretary of agriculture,  
an outstanding authority on food  
conditions.

"The report concludes that  
the minimum food needs of  
Poland during the calendar  
year 1947 generally can be met  
without assistance from the  
United States. Col. Harrison in-  
dicates that there may be a  
need for small quantities of  
supplies for special groups.

"It would appear that such  
special items as Col. Harrison in-  
dicated might be needed, can be  
supplied through private relief  
agencies of the United States as  
well as through other sources in-  
cluding the international emer-  
gency children's fund, which this  
(Continued on Page Two)

### FOREIGN HELP FUND BOOSTED BY COMMITTEE

WASHINGTON, July 23—The

Truman's overall foreign aid pro-  
gram by 177 million dollars to-  
day, placing the big supplemen-  
tal appropriation bill in position  
for action before adjournment  
Saturday.

The measure is one of the keys  
to whether congress can com-  
plete its work this week. The  
senate committee put back in  
the bill 175 million dollars cut by  
the house from Mr. Truman's  
request for relief in occupied  
Germany, Japan and Korea. The  
house had allowed only 550 mil-  
lion dollars of the 725 million re-  
quested by the war department.

The senators made the restora-  
tion by granting 625 millions in  
cash and 100 millions in contract  
authorization.

### OSBORN TELLS RUSSIA THERE IS NO CHANGE

UN Delegate Says America  
Will Stand On Baruch  
Plan For Violators

LAKE SUCCESS, N. Y., July  
23 — The United States served  
notice on Soviet Russia in the  
United Nations today that it  
stands flatly on the Baruch  
plan's prohibition of the veto in  
the punishment of atomic code  
violators.

The announcement added that  
the United States will not be a  
party to any change in the prin-  
ciple of that provision.

Frederick Osborn, U. S. repre-  
sentative on the atomic energy  
commission, made his disclosure  
at the resumed meeting of the  
12-nation atomic working com-  
mittee in replying to Soviet dele-  
gate Andrei Gromyko's insis-  
tence that the veto be retained.

Osborn asked for a postpone-  
ment of further debate of the  
veto question on the grounds  
that the problems of sanctions  
cannot be adequately considered  
before the next report of the  
atomic energy commission is  
due in the security council.

IN REAFFIRMING United  
States support of the most im-  
portant provision in the Baruch  
plan, Osborn directly admitted  
that Soviet Russia and the west-  
ern powers are as far apart as  
ever on the major principles of  
atomic control.

Osborn said that the clear-cut  
issue before the commission is  
simply "whether there shall be  
any legal right, by veto or oth-  
erwise, whereby a wilful violator  
of the terms of the treaty or con-  
vention shall be protected from  
the consequences of violations of  
its terms."

The United States delegate  
added:

"The view of ten members  
of this commission as expressed  
by their adherence to the  
year end report is that no such  
right should exist. This is the  
principle which was first enun-  
ciated on behalf of the United  
States by Mr. Baruch on June  
14, 1946. The United States  
has held consistently and un-  
(Continued on Page Two)

### GOP COMMITTEE FAVORS PRICE, HOUSING PROBE

WASHINGTON, July 23 — The  
senate GOP policy committee  
gave its approval today to pro-  
posals for an investigation this  
Summer of the housing and con-  
sumer price problems.

Chairman Taft (R) Ohio, an-  
nounced that the committee had  
generally sanctioned a list of al-  
most a dozen special requests  
for investigative authority or  
funds for use during the con-  
gressional recess.

They include inquiries into the  
RFC and other lending agencies,  
immigration policy, social secu-  
rity, Maryland and West Virginia  
elections, agriculture, and Dis-  
trict of Columbia police.

The housing inquiry was spon-  
sored by Sen. McCarthy (R) Wis.  
Taft said he understood Mc-  
Carthy had an agreement to get  
the request through the house  
before congress adjourns Satur-  
day. It calls for a joint commit-  
tee to investigate the lag in the  
construction industry, particu-  
larly on housing.

Sen. Baldwin (R) Conn., has  
proposed that a sub-committee  
of the joint economic committee  
investigate consumer prices dur-  
ing the recess. Taft said he saw  
no controversy in either propo-  
sal.

BABY'S DEATH PROBED  
COLUMBUS, O., July 23—A  
coroner's verdict was expected  
today in the death of a two-  
month-old Columbus baby who  
apparently suffocated in his crib.  
The baby, Joseph Merle Lloyd,  
only child of the Reese E.  
Lloyds was found dead by his  
mother yesterday afternoon.  
Mrs. Lloyd told sheriff's depu-  
ties she had last seen the child  
alive shortly after 6 a. m. She  
said she overslept and did not  
find the body of the child until  
about one o'clock.

### OHIOANS SHIVER AS 'COLD' STAYS

Low Records Set In Many  
Places; Hail Impedes  
Highway Traffic

By International News Service  
Record "cold" temperatures  
hung on in Ohio today, with  
another chilly night scheduled  
before the mercury starts get-  
ting back to its normal July  
trend.

The weatherman discounted  
rumors of snow in northern  
Ohio yesterday, but said there  
were many reports of hail  
drifting to four and five inches  
to impede highway traffic at  
times.

Temperatures last night drop-  
ped to as low as 41 degrees at  
Zanesville, with the highest  
minimum being 51 degrees at  
Perry.

FORECASTERS blamed ex-  
tremely cool northern winds  
blowing across Lake Erie for the  
somewhat unusual Summer dis-  
turbances. Rain and hail, how-  
ever, were confined mostly to  
northern Ohio.

Columbus was one of the  
many places with record low  
temperatures for the last two  
days. Yesterday the capital  
city had 53 degrees, compared  
with 55 on the same date in  
1890, and this morning a low of  
52 against 55 set in 1925.

For the same July 23, Cleve-  
land this morning had a low of  
50 compared with the previous  
record of 51 degrees in 1886.

Other low temperatures this  
morning were 42 at Jackson, 44  
at Canton, 45 at Wilmington and  
47 at Akron, East Liverpool,  
Hayesville, Youngstown and  
Parkersburg, W. Va.

FORECASTERS said that  
temperatures over Ohio today  
would range between 57 and 75  
degrees, between 45 and 50 de-  
(Continued on Page Two)

### TRUMAN SIGNS BILL GRANTING AMVETS CHARTER

WASHINGTON, July 23—Pres-  
ident Truman today signed a bill  
granting to Amvets the first gov-  
ernment charter extended to a  
World War II veterans organiza-  
tion.

The measure, passed unani-  
mously by the house and the sen-  
ate, gives Amvets the same sta-  
tus as the American Legion, the  
Veterans of Foreign Wars, the  
Disabled American Veterans, and  
the United Spanish War Veterans.

The signing ceremonies were  
witnessed by Ray Sawyer, Am-  
vets national commander, and  
six national vice commanders.

The organization — officially  
known as American Veterans of  
World War II—was formed three  
years ago and has 120,000 mem-  
bers in more than 1,000 local  
posts throughout the United  
States.

RUSSIA REJECTS BID  
LONDON, July 23—The Mos-  
cow radio broadcast tonight a  
Soviet reply to an invitation  
from the United States for par-  
ticipation in preparatory Japan-  
ese peace treaty talks on August  
19. It constituted a virtual re-  
jection.

# OSBORN TELLS RUSSIA THERE IS NO CHANGE

(Continued from Page One) equivocally to this principle throughout these negotiations. It holds unequivocally to this principle now.

"In our view, no useful purpose could be served by engaging in any lengthy debate on this principle at this time. As far as the United States is concerned, all that needs to be said on this principle has been said many times before. I have no wish to add or detract from what has been said on this matter by my most able predecessor."

OSBORN CONCLUDED by re-emphasizing that "the United States stands firmly behind the atomic energy commission's veto recommendations and will not be a party to any change in the principle which it contains."

The atomic working group agreed without objection to an indefinite postponement of the veto issue and skipped to consideration of the tenth of twelve Soviet amendments to the Baruch plan.

Previously, Gromyko maintained that the exercise of the veto was an integral provision of the charter and a basic function of the security council. He asserted that any attempts to limit the functions and rights of that body "are doomed to failure."

# U. S. PROBING PRICES CHARGED FOR NEWSPRINT

WASHINGTON, July 23—A special house committee disclosed today that the government is investigating reports that publishers and printers have been charged "unconscionable prices" for newsprint and other paper by some suppliers.

The newsprint committee headed by Rep. Clarence J. Brown (R) Ohio stated that legal action may result against the concerns which "had taken advantage of the shortage situation and of the dire need of publishers and printers."

The committee declared that "some newsprint and paper is still being sold at exceedingly high prices through more or less 'under-cover sales.'"

In an interim report to the house, the committee asserted that "manufacturers' earnings are especially good at the present time and the committee can see no justification for any further paper price increases." Instead, it added, they should be reduced.

The seven-member group has received an invitation to confer with Canadian officials in Canada some time in August to discuss newsprint and paper supplies and problems common to the two countries.

The committee will also study the possibilities of establishing a newsprint and paper manufacturing industry in Alaska "on a sound economic basis," probably next year.

The committee stated, however, that it felt "the greatest opportunity for increasing newsprint production in the United States can be found in the southern states where plentiful wood supplies are available."

# TREASURY BALANCE

WASHINGTON, July 23—Treasury balance July 21, \$2,852,135,052.47; internal revenue, \$20,525,665.38; customs receipts, \$23,415,925.99; receipts, \$1,642,286,921; expenditures, \$2,282,898,361.

# STOCKS MOVE UP

NEW YORK July 23—Stocks moved over to the upside today in slightly more active trading. Gains of fractions were common with a few shares up even more.

Have you been dreaming of expanding your plant—Enlarging your business? Come in and talk it over with us, if you need a commercial loan to carry out your plans.

# Pickaway Farmers Face Big Wheat Crop Loss As Freak Weather Continues

(Continued from Page One) fall. As a direct result, the county agent said, a lot of wheat has been sprouting, both in standing head and shock.

"The situation is—at the best—very bad," County Agent Best declared. He added that during a survey which covered the 48 hours ended Wednesday noon it was learned that a number of Pickaway county farmers began combining, and this process will be continued in ever-increasing volume — unless more rains come.

THE FARMERS, it was ascertained, are taking losses when

# OHIOANS SHIVER AS 'COLD' STAYS

(Continued from Page One) grees tonight, and between 72 and 80 degrees tomorrow afternoon.

High and low temperatures and rainfall amounts in inches, respectively at various points for the 24-hour period ending at 8 A. M., today were:

Akron 60-47, .32; Chesapeake 74-48; Cincinnati 72-49; Cleveland 64-50, .27; Columbus 69-52, .01; Dayton 70-50; East Liverpool 68-47, .01; Findlay 72-48, .03; Hayesville 58-47, 1.07; Parkersburg 68-47; Perry 61-51, .77; Toledo 68-48, .06; Wilmington 68-45; Youngstown 70-47, .01, and Zanesville 65-41.

# Deaths and Funerals

## AVERY V. PURCELL

Avery V. Purcell, 54, of 835 South Pickaway street, died at 5:45 a. m. Wednesday in Berger hospital which he had entered early Tuesday afternoon as a medical patient.

Mr. Purcell was a car inspector for 32 years for the Norfolk and Western railway and he retired in February, 1947 because of ill health. He was a member of the Methodist church and of the Masonic lodge. He was twice married and his first wife, Mrs. Blanche Miller Purcell preceded him in death.

Survivors are his widow, Mrs. Minnie Kind Purcell; a daughter, Mrs. Gail Wilson, 1310 South Pickaway street; a son, Carl Purcell, 138 1/2 West Main street; his mother, Mrs. Ida Beckett, Route 1, Lockbourne; two stepdaughters, Miss Eileen Maynard and Miss Edna Maynard, both at home; a half-brother, Roy Beckett, Route 1, Lockbourne; and two grandsons, Carl William Purcell and Robert Avery Purcell.

The body was removed to the Deffenbaugh funeral home pending completion of funeral arrangements.

## MRS. CLARA DENMAN

Mrs. Clara Denman, 90, Mt. Sterling, widow of Will Denman, died Tuesday in a rest home at Washington C. H.

Mrs. Denman formerly resided on East Main street, Circleville, and was very active in the First United Brethren church.

Surviving are one brother, Edward Hines, and three sisters, Mrs. Ida Julian, Miss Ella Hines and Miss Alma Hines, all of Mt. Sterling. Mrs. Denman had lived with them in Mt. Sterling for several years.

Funeral will be held Thursday at 2 p. m. from the Snyder funeral home in Mt. Sterling. Burial will be in Reber Hill cemetery.

Friends may call at the funeral home.

they transport wheat to the elevators because of the sprouting, mold, and excess moisture content.

Moisture in wheat delivered to elevators in Pickaway county has been running 14 to 18 per cent. However, in some other Ohio areas the moisture has been reported running up to 25 per cent.

County Agent Best said the worst load he knew about was taken to an elevator Tuesday. He said the farmer was docked 45 cents per bushel in the price paid because of the surplus moisture. He said test weights are running very low.

Some elevators are rejecting the moisture-laden wheat although most are taking it at slashed prices. This is because most elevators have drying facilities. Cost of the drying processes, however, must be deducted from the prices paid to the farmer.

## PICKAWAY county farmers

claim it has been more than 15 years since wheat sprouted in the shock. A lot of farmers cannot remember when this occurred. Yet this has been happening in Pickaway county for the last 10 days to two weeks.

Grain dealers claim it will be impossible for farmers to store wheat without spoilage losses. Very few farmers have drying facilities.

# DREAM COMES TRUE FOR BOY SIGNAL MAKER

ELYRIA, O., July 23—The dream of a lifetime was coming true today for Tommy Sigsworth, 13-year-old farm boy of near Elyria.

Since a tiny lad, Tommy has been blinking signals with a light from his bedroom window to the New York Central trains that pass by his home.

Pretty soon the engineers of all the trains were answering Tommy's signals with blasts from the locomotives' whistles.

It got so that when trainmen didn't see those tiny flashes of light from Tommy's window, they would start to worry for fear something was wrong. On a number of occasions they would drive to the Sigsworth home to make certain Tommy wasn't ill.

This long friendship of the railroad men with the boy finally came to the attention of New York Central officials.

That is why Tommy was riding in the cab of one of the line's giant locomotives today and pulling on that same whistle that has greeted him so friendly over the past years.

Tommy was going to Toledo and board the engine of the fast five avenue special for a trip into Cleveland. A special lunch and other entertainment were planned for the occasion.

## DEHAYES MOVES

COLUMBUS, O., July 23—Daniel W. Dehayes, 32, Columbus, will leave his post as public relations chief of the bureau of unemployment compensation tomorrow to become personnel director of the state liquor department.

## BRITISH TO ACT

LONDON, July 23—British Foreign Secretary Bevin told the house of commons today that Britain is determined to use her good offices in bringing about solution of the Indonesian war at the earliest possible moment.

# DUTCH ACCUSED OF USING JAPS IN THEIR RANKS

(Continued from Page One) military wherever they are but we must spare women and children."

MEANWHILE, Lieut. Gen. S. H. Spoor's headquarters—in its first tabulation of casualties—said the operations thus far have cost the Dutch only 43 men, including 17 killed and three missing. The others were listed as wounded.

Despite Republican claims to have repulsed a strong force of Dutch troops—spearheaded by 100 tanks or armored cars—in their southward drive, Netherlands headquarters said Salatiga was occupied.

Salatiga, 35 miles from the Republican capital of Jogjakarta, is considered the key to the rail junction of Surakarta which lies to the southwest of the capital.

The communique added: "Around Semarang, our troops also occupied Oengaran, Toentang and Ambarawa."

Other towns seized as Dutch seaborne forces advanced from their northern and eastern coast beachheads included Probolinggo, Pasirian, Besuki, Situbondo, Dember, and Banjoewangi.

NETHERLANDS officials described Republican resistance as "only sporadic," adding that "therefore action is progressing very satisfactorily."

The communique added: "The scorched earth policy manifested itself mainly in the robbing of more wealthy inhabitants, especially Chinese, and the burning down of their property."

Advancing west from the Soerabaya naval base, Dutch forces reached Bangil, Pandanan.

Republican quarters, meanwhile, accused Dutch aircraft of bombing and strafing the "open towns" of Cheribon, Tjibatoe, Garoet and Tasik-Malaya along with others in central Java.

## CABLE STRIKE ENDS

NEW YORK, July 23—A strike against three trans-oceanic cable and radio companies, which handle one-third of the nation's cable and radio business, ended early today less than three hours after it got underway at 11:01 p. m. EST. A joint announcement by company and union officials said an agreement had been reached providing for an across-the-board increase of 10 cents an hour, retroactive to last June 1.

## CONCERT PLANNED

Members of the newly organized community band of Circleville will present a concert Thursday at 8 p. m. in the Shelter house at Ted Lewis park. If the weather should be cold or rainy, the program will be postponed until a later date.

## STATE HELP ASKED

BENTON HARBOR, Mich., July 23—Gov. Kim Sigler was advised today that "a state of riot and insurrection" exists at the strike-bound plant of the Remington-Rand corporation, and was asked to rush state police to Benton Harbor.

## TRAIN HITS MINE

LONDON July 23—A Reuters dispatch from Tientsin reported today that 27 passengers were killed, 12 seriously injured and many others slightly hurt when a train bound for Tientsin struck a mine on its way to Shanhaikwan.

# Shortage Aids Reds

ASSERTING before a Senate committee that the steel shortage is the "Communists' best secret weapon in America," UAW President Walter Reuther urged that the federal government set up steel production plants unless the industry expands its present facilities. (International)

# GOP LEADERS SPLIT ON RESULT OF DEWEY TRIP

WASHINGTON, July 23—Capitol hill Republicans are divided today as to whether Gov. Thomas E. Dewey, of New York, is gaining or losing ground in the GOP presidential sweepstakes during his "vacation tour" of the West.

A majority think Dewey definitely lost ground, even though he remains a favorite for the Republican nomination next year.

Some ardent Dewey supporters insist he has gained ground by winning new friends in the West through personal contact. They say his trip has made the West "Dewey conscious" while giving the New York governor a new insight into western problems that will aid him once open campaigning starts.

His critics argue that Dewey has made a number of "political blunders" on the trip by "seeing the wrong people." It appears Dewey has failed to win any new delegations and he did stir up a few "hornet nests" in the wake of his trip.

# MIDDLEPOINT MAN SUES BANK HERE FOR DAMAGES

Judgment in the sum of \$402 is asked in a damage suit filed Tuesday in Pickaway county common pleas court by A. W. Baxter, Middlepoint, against the Circleville Savings and Banking company.

Mr. Baxter alleges that he bought a used car March 17, 1947 from the Moats Motor Sales, Circleville, that he made a cash down payment and paid the balance of \$375 by giving his note in that amount to the Circleville Savings and Banking company, and that the note was secured by a chattel mortgage on the car. Mr. Baxter further claims that on April 20, 1947 the financial institution "repossessed and took away" the auto, without notice to him, and that it was sold at private sale for \$398, a price which he contends was "far below the actual market price" of the car. Mr. Baxter alleges that at the time the bank sold the car the vehicle had an "actual market value of \$800" and that he has thereby been damaged to the extent of \$402.

# ITCH

(Scabies) is highly contagious and will continue for life if not stopped. Its sole cause is the itch-mite which is immune to ordinary treatment. EXSORA kills the itch-mite almost instantly. Only three days EXSORA treatment is required. At all GALLAGHER DRUG STORES.

# POLAND WILL NOT GET FOOD

(Continued from Page One) country and others are supporting."

THE DEPARTMENT'S action had been anticipated ever since Poland, at Russian insistence, declined to join in the Marshall plan conference for European reconstruction.

Earlier Poland had asked for 200,000 tons of cereal from the United States to make up the deficit in its own crop. Congress had also declined to appropriate any funds to carry out the relief program in Poland and Hungary.

In making its announcement the department also published the text of Harrison's report.

This said that the Polish food situation was much better than in many other countries, particularly Greece, Italy, Austria, the American and British zones of Germany and Japan.

# U. S. TO CHECK ON TESTIMONY

(Continued from Page One) as her projects for development of a United Europe.

Recent reports from behind the "iron curtain" were said to have indicated that some of the satellite states, which Washington invited to the conference, were to be eyeing the proceedings with a degree of regret.

It is not believed, however, that they will join in the Marshall plan until and unless Moscow gives them the go-ahead sign.

# JAYCEE GOLF TOURNAMENT WILL BE HELD HERE

President Ed Amey Names Committees For Year At Meeting

Decision to stage a golf tournament by Aug. 3 at the Pickaway Country club was reached at a meeting of the Cincinnati Junior Chamber of Commerce which was held Tuesday night at the Betz restaurant. Participation in the tournament will be restricted to Junior Chamber members.

Ed Amey, president of the Jaycees, presided at the meeting. Appointment of several committees to serve during the ensuing 12 months was announced. Possible ways and means for a proposed re-location of the municipal dump ground, now located on U. S. Route 22 just west of the city, were discussed.

THE NEWLY announced committees include: Agriculture — Lewis Cook, chairman; Emmitt Ebenhack, Robert Elsea, Dr. F. P. Dunlap and Ronald Jones.

Aviation—Robert Elsea, chairman; Charles Glitt, William Herbert and Lawrence Agin.

Awards—Richard Plum, chairman; Louis Cook, Fred Grant and Paul Rodenfels.

Governmental Affairs—Roger May and Ray Barnhart.

Christmas Activities — Fred Grant, chairman; Ronald Jones, Ray Goetting and John Evans.

Community Improvement and Promotion—Ray Goetting, chairman; Maurice McIntire, Arthur Wagar and Fred Grant.

Extension—Frank Wantz and John Moore.

Personnel and Leadership Training — Ralph Amey, chairman; Richard Morris and Robert Owens.

Public Health and Safety — John Evans, chairman; George Speakman and Philip Gordon.

Publicity and Public Relations — Arthur Wagar and Paul Rodenfels.

Social and Sports — Maurice McIntire and Robert Brehmer.

Youth Welfare — John Moore, chairman; (1) troop sub-committee William Herbert and Robert Miller; (2) gum ball sub-committee, Paul Rodenfels; (3) school safety sub-committee, Frank Wantz; (4) youth canteen sub-committee, John Moore.

## CITY'S LIGHTS FEATURED IN 'THE RAILITER'

"Black-Out Ended" is the caption of an article concerning Cincinnati's new downtown boulevard light system appearing in the current issue of "The Railiter", official periodical of the Columbus and Southern Ohio Electric company.

On the front cover of the magazine appears a photograph of Mayor Ben H. Gordon, Charles T. Gilmore, power company manager in Cincinnati, and John B. Poston, president of the Columbus and Southern Ohio.

Reviewing the ceremonies incident to the turning on of the 37-unit boulevard lighting system the night of June 10, the magazine article, written by John C. Anderson, associate editor, says "no longer do the citizens of Cincinnati need to grope around in the dark or be afraid of a downtown holdup — the 'round city' was changed in an instant from one of the poorest lighted to one of the best lighted towns in the state."

## Trial Witness

## REYNOLDS OFFERS TO BET ON HIS PLANE PILOT

NEW YORK, July 23—An offer to bet any amount from 25 to 100 thousand dollars on Capt. Bill Odom in a round-the-world solo race was posted today by Milton Reynolds, millionaire pen manufacturer from Chicago. Reynolds, in a cable from Paris, said anyone taking the bet would have to be ready to leave Aug. 3 when Odom is scheduled to take off on his projected solo flight in the Reynolds Bombshell from Chicago. Odom piloted the same ship recently when he, Reynolds and another flier scooted around the world in four days, and set a new record for global flying.

There are almost 700,000 beds in mental hospitals in the United States.

## CAR INSPECTION REVEALS MANY MINOR DEFECTS

State Patrol Reports About 20 Percent Of Autos Need Some Repair

Large number of motor vehicles have been inspected by Cincinnati police and State Highway Patrolmen L. G. Ridenour and Clyde E. Wells in connection with the state-wide annual traffic safety campaign which began July 1 and will continue through July 31.

Police Chief William F. McCrady and the highway patrol officers said Wednesday that many cars examined were found to have defects deemed dangerous and that all such car owners have been notified to have proper repairs and adjustments made at once as a safety measure.

Although accurate figures as to the number of cars checked and the proportion found deficient were not obtainable the police and highway patrolmen commended motorists of Cincinnati and Pickaway county

for their "splendid cooperation" in the safety drive.

THROUGHOUT Ohio the campaign thus far, it was announced Tuesday, has shown that almost 20 per cent of the vehicles inspected had some primary defect in equipment. Lieut. M. A. Mock, of the highway patrol, Columbus, announced that 108,622 cars have been checked and of that number 19,123 had defects serious enough to warrant issuance of warning tickets to their drivers.

Lieut. Mock listed burned-out bulbs in head and tail lights as the most common defect, followed by faulty brakes and horns. The policy being followed in the campaign is to arrest a driver whose car has some serious defect or if the driver does not possess a driver's license. However, in the majority of cases the driver is warned to have necessary repairs made within three days.

"Every car owner owes it to himself and to the community", Chief McCrady said, "to give full cooperation to the policy in this safety campaign, because every driver needs to accept the responsibility to drive safely in a safe car."

For the first time in its 100-year-old history, Hahaemann Medical college, Philadelphia, recently conferred a physician's degree on a married woman with that of her husband. Royal Thomas and his wife, Mary, were graduated in the same class.

## PREVENT OFF FLAVORS and OFF ODORS IN MILK

• ONION OR WEED FLAVORS may be prevented in milk by removing cows from infested pastures 3 to 4 hours before milking.

• SOME BAD ODORS may be prevented by prompt cooling of milk to a low temperature.

• OTHER BAD ODORS may be caused by a dirty stable or dirty utensils—the only solution—clean the stable after each milking—it's easier and less work—clean utensils PROPERLY and thoroughly after each milking. Disinfect before using.

INCREASE Milk CHECK

CLEAN YOUR MILKING MACHINE DAILY with a satisfactory cleaner solution—store rubber parts in a LYE SOLUTION between milkings — rinse with cold water before and after each milking.

CLEAN YOUR MILKING MACHINE DAILY with a satisfactory cleaner solution—store rubber parts in a LYE SOLUTION between milkings — rinse with cold water before and after each milking.

## AIR FORCE DAY PROCLAIMED FOR FRIDAY, AUG. 1

Circleville Citizens Urged To Pay Tribute On 40th Anniversary

Mayor Ben H. Gordon Wednesday issued a proclamation setting Friday, August 1, as Air Force Day in Circleville.

WHEREAS, the President of the United States has proclaimed August 1 as Air Force Day to honor the millions of men, living and dead, whose contributions to the growth of American air power make the Army Air Forces this country's most far-reaching weapon of defense; and

WHEREAS the Army Air Forces is receiving an increasingly important role in maintaining, through constant research and development of aircraft and adequate trained personnel, the defense of this nation; in supporting the United Nations with adequate and effective air contingents; in avoiding the cost of war by insuring peace; and in providing, in the event of war, a nucleus of highly trained personnel, the basis for all-out expansion of war; and

WHEREAS a grateful nation recognizes the importance of air power in preserving our liberties and appreciates the potentialities of air power in pioneering an even more glorious future for our country;

Now, therefore, I, mayor of the city of Circleville, in order that we may honor the men and women of the Army Air Forces who have given their lives in the defense of this country, and recognize the service of those who in the armed forces or in the civilian centers of science, research and production have contributed to the building of our air might, do hereby proclaim Friday, August 1, 1947, as Air Force Day in Circleville.

I urge all citizens to join in the observance of this, the 40th birthday of the Army Air Forces, with ceremonies appropriately expressing their gratitude for its glorious past and their hopes for its future continued growth and development.

In witness thereof, I hereunto set my hand and cause the seal of the city of Circleville to be affixed.

Done this 23 day of July, in the year of our Lord, one thousand nine hundred forty-seven, and of the independence of the United States of America the one hundred seventy-second.

Ben H. Gordon, Mayor

**DRIVER FINED FOR LEAVING DOG STRUCK BY AUTO**

CHICAGO, July 23 — Chicago Judge Leon Edelman regards it an equal crime for a motorist to leave an injured animal or a human being lying in the street.

He impressed that view on Roy Thompson, 23, by fining him \$100 and costs.

The judge was told Thompson's car struck two dogs.

One was not badly hurt but the other suffered a broken leg.

Thompson's car was halted shortly after the accident and he was booked by police. He explained that he was afraid to stop because owners of one of the dogs were "yelling at me."

The first machine invented to undercut coal in mines to take the place of laborious hand picking, was deliberately wrecked by the miners who thought it would deprive them of their jobs.

## SENSATIONAL NEW CURLER!

AT LAST! AN EASIER HOME PERMANENT!

QUICKER! Charm-Kurl's sensational, new Lock-Tite curler is far easier, quicker, better than those hard-to-use curlers you've known.

## VAN CAMP LOW BIDDER ON OHIO HIGHWAY JOBS

George W. Van Camp, Circleville contractor, was the low bidder, the state highway department announced Tuesday at Columbus, on proposals for six highway improvement jobs in Pickaway, Fayette and Madison counties in connection with bituminous treatment of roads.

The six projects are on State Route 665 in Madison county, State Route 762 in Scioto and Harrison townships in Pickaway county, State Route 70 and State Route 62 in Fayette county. The estimated cost was \$21,974.34, and the Van Camp bid was \$19,624.

The idea of celebrating New Year's Day on Jan. 1 was introduced by Julius Caesar when he adopted the Julian calendar and postponed the Roman holiday of New Year's from Dec. 21 to Jan. 1, according to the Encyclopedia Britannica.

## LONDON LIQUOR STORE TO CLOSE DURING FAIR

LONDON, O., July 23 — The state liquor store at London will be closed during the Madison county fair, August 17 to 21. Store Manager William Hewitt announced today that those were his instructions from the state liquor control department. The old law banning sales of liquor within two miles of an agricultural fair was repealed by the legislature but the repealer does not take effect until Sept. 8.

## Farm Mortgage Debt Up First Time In 17 Years

Farm mortgage debt turned up in 1946 for the first time in 17 years, rising some \$170 millions to an estimated total of \$5 1/2 billions, the Institute of Life Insurance reported today based on U. S. department of agriculture estimates.

Except for 1945, the Institute said, the 1946 farm mortgage debt was the lowest in 32 years and represented a reduction of about 20 percent from the total outstanding at the beginning of the war and more than 50 percent from the \$10.8 billions farm mortgage debt peak set in 1923. As a result, debt and interest charges per acre also were down sharply from 1923.

However, there are other elements in the current farm real estate situation that explain the growing concern both in business and government circles over the outlook, the Institute stated.

"One is the very marked increase in the average size of new farm mortgage loans re-

gages recorded last year was 26 percent greater than the year before and 15 percent above the 1940 total.

"Another factor is the great rise that has occurred in farm real estate prices. On March 1 this year, the average price per acre was 92 percent above the 1935-39 average and only 6 percent under the all-time peak in 1920, at the height of the farm land inflation of the World War I period. Furthermore, sales of farms have been increasing steadily and turnover last year reached a new high.

"In addition, there is widespread uncertainty over the stability and duration of current high prices for farm products which have been the basic factor in the boom in farm real estate."

Myall wood is a hard, violet-scented wood of Australia, much used for making tobacco pipes.

## FRESH BLOOD A MUST FOR FREE ENERGY

Do you feel like you are tied to a drag every time you try to do something? If so, don't let a low blood count hold you down when you may release vibrant energy to every muscle, fibre, cell.

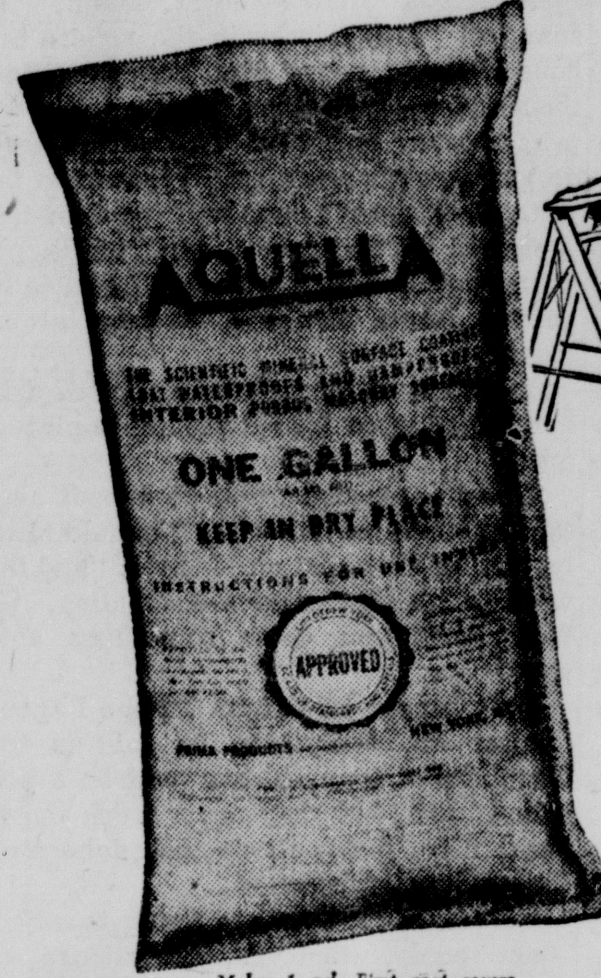

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloating and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

## NO MORE Leaky Cellars!

**AQUELLA**  
MINERAL SURFACE COATING  
STOPS LEAKAGE, SEEPAGE, DAMPNES  
IT'S NEW! IT'S DIFFERENT! IT WORKS!

Here's that amazing, waterproofer you've been waiting for! Aquella expands when applied to porous masonry—fills every microscopic pore to form a micropore seal that continues to harden with age. Imparts a glistening white, eggshell-like finish—light reflecting and beautiful "as is," or it may be painted over with any color. Will not powder, rub off, blister, peel or flake. Get Aquella for interiors; Aquella No. 2 for exteriors.

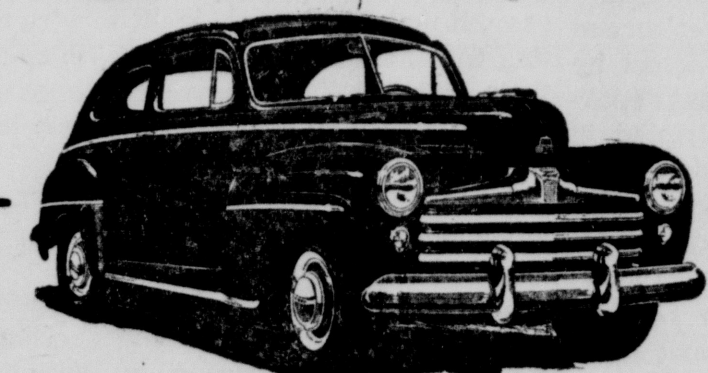

**AQUELLIZE FOR WATERTIGHTNESS**  
Inside or outside, above or below ground. For all such porous masonry surfaces as concrete, masonry blocks, common brick, rough plaster, stucco. Directions in bag.

**\$3.95 PER BAG**  
Makes 1 gal. First coat covers 60 to 120 sq. ft., second coat, 175 to 210 sq. ft.

## FORD OFFERS THE LOWEST PRICED CARS IN ITS FIELD

These days many articles are being sold at prices that represent the full amount the SELLER thinks the public will pay.

Automobiles are not in this class. New cars are being sold every day by authorized Ford Dealers at prices well below what people are willing to pay.

That is why we Ford Dealers publish this advertisement. We want you to know the exact prices we charge for the new Ford cars we sell, and that no bonus payments or premiums of any kind have been or will be accepted.

Of course, the demand for new Fords is still far ahead of the supply. But we are delivering cars as fast as we can on a fair and equitable basis to those who have their orders on our books now.

We sincerely appreciate your patience. We want to deliver your new Ford just as soon as possible, at the REGULAR PUBLISHED PRICE. In the meantime, let us keep your present car rolling with Friendly Ford Service.

And remember that it has always been Ford policy to offer the greatest value at the lowest possible cost.

### NO SCHOOL STRIKES

THE PROBLEM of school teachers' strikes, which caused a flurry of confusion and anxiety throughout the nation a few months ago, seems to have settled down to a rational basis not very different from the original attitude of the profession. It has been recognized more clearly that, while all professions, whether manual or intellectual, are honorable and worthy of proper respect and compensation, there are qualities and principles in the so-called "higher professions" which call for special respect and appreciation. Viewed in this light, teaching and the ministry are not far apart.

It is reassuring to find that educators in general appreciate the distinctions and recognize that where adequate money compensation has been small, the lack has been somewhat counterbalanced in the past on a scale of higher values than those of the marketplace.

Proper efforts for decent compensation should go on without ceasing, for the laborer is worthy of his hire and there is no excuse for a teacher or teacher's family to suffer poverty. But in addition to the money return, the teacher should have high admiration and respect in line with the high service.

The other side of the situation is that there should be no strikes. A strike of teachers lowers the dignity of the profession, and is a plain indication that the community is not doing its just duty. If the community will pay its teachers well, look up to them as to the noble people they are, the strikes will be likely soon to disappear.

### VOTES AND PROSPERITY

Voting is popularly supposed to follow the dictates of the pocketbook. Prosperity means support of the administration lucky enough to be in power. Hard times bring about anti-administration votes. Thus the panics of 1873 and 1893 were disastrous to the Republican administration in the first case and to the Democratic in the second. The depression of 1929 proved fatal to the long established Republican tenure of office.

Nowadays it may be different. The country was prosperous in 1946, and yet turned out the Democrats. Figures published by Business Week emphasize this new departure. Farm income doubled or tripled in Wisconsin, Indiana, Michigan, Ohio and Illinois from 1939 to 1946 yet at every election the farmers have voted Republican, more emphatically as their income rose.

If the Truman administration reduced the farmers' income, would they vote Democratic in 1948?

Even with all the yelling and insistence on killing the umpire, baseball is one of the two or three most wholesome influences in American life.

## ASSIGNMENT: AMERICA

By Kenneth L. Dixon  
Distributed by International News Service

WASHINGTON, July 23—"So you're a newspaperman," said the cab-driver in what sounded like a sneer as he headed toward the house wing of the capitol building. "Well, why don't you write something about the fact that these jerks are being hired by the year?"

"What jerks?" I asked, not wanting to jump at conclusions.

"Aw, you know who I mean," he snapped. "These jerks in the senate and house. Us taxpayers hire 'em at fifteen thousand bucks a year, plus a lot of expense money and what-not, and we never do get a year's work out of 'em. And this year, they haven't done half the stuff they promised us they would, but now they're gonna quit and go home—just because it's getting kinda hot and sweaty around town."

He swung up through the hallowed drive and halted, then turned around to glare at me.

"They don't seem to give a hoot about the work they're not doing," he said bitterly, wiping the sweat off his face. "and they work in an air-conditioned building, too! Why don't you write something about that?"

Well, maybe he's right. Maybe I should. After all, everything he said is true. Members of congress are paid on a year-round basis, but they never work the full year. Also, they now do their laboring in air-conditioned comfort.

Furthermore, they are fixing to adjourn—not recess, mind you, but adjourn—this weekend. Which means they get the rest of the year off, at full pay.

What single legitimate reason have they offered for quitting? Well, if you've heard of any you're better off than both the cab-driver and this correspondent. If they were just taking a brief recess or vacation, it would be different. But—at this writing—they're not. They're adjourning until sometime next year.

And what work are they leaving behind them?

Well, there's the veterans' emergency housing legislation, for instance. In spite of promising us taxpayers (their bosses) that they'd do something about that, they haven't. And people on both sides of the fence claim that action is needed on that score, if we're to relieve the housing crisis. But congress is leaving that chore undone.

Then there's the business of lowering taxes. The taxi-driver had some opinions on that.

"Everybody knows," he said, "that if they really wanted to do something about taxes, they could get together with the President and work out some bill that he'd sign. But they're just playing politics with it. They decided either to pass a great big tax-cut bill that they could take a lot of credit for, or else fix the record so they could blame it all on the other side next year, if nothing is done. Well, they're quitting with nothing done about it—in spite of their promises."

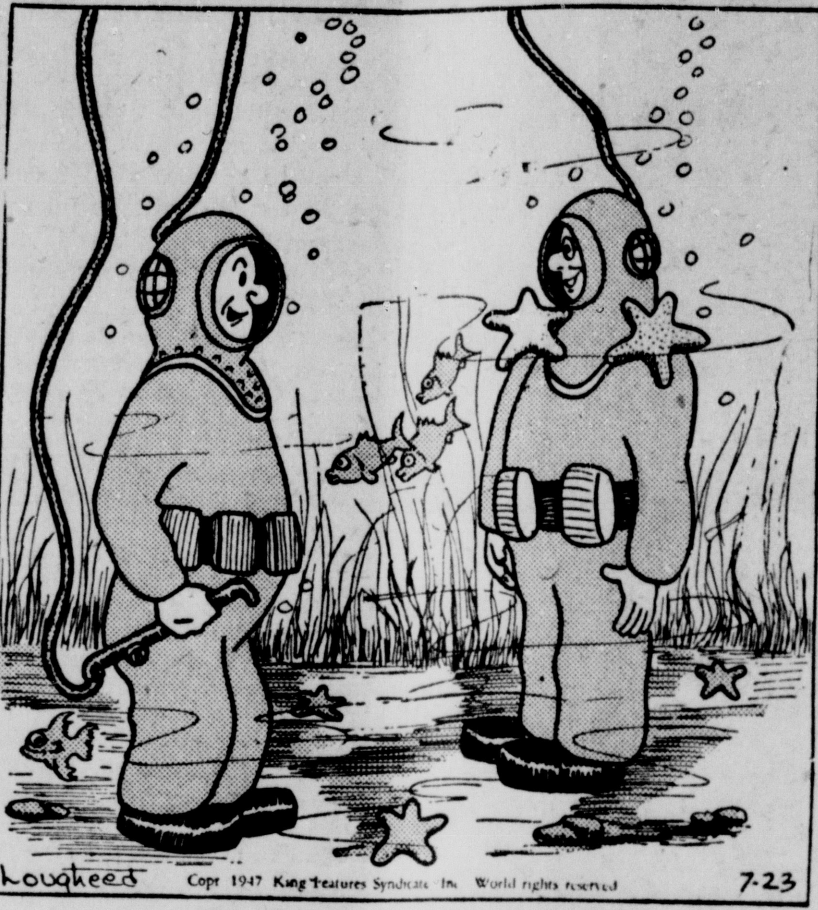

And, ladies and gentlemen, the guy is absolutely right.

Concerning the congressional work still left undone, there were many other points he could have mentioned.

Militarily speaking, he might have felt it necessary that there be some decision on such measures as Army-Navy unification and the proposed universal military training—if for no other reason than that it would give our fighting folks some idea, in these crucial times, about how to handle their future preparedness program.

(Continued on Page Eight)

### LAFF-A-DAY

"Look, Joe—brigadier general!"

## BARCLAY ON BRIDGE

By Shepard Barclay

"The Authority on Authorities"

### A GOOD WAY TO TEACH

IF YOU are trying to teach a relative beginner some of the principles of sound play, one of the best methods is to select a hand which illustrates a particular point and then show him what happens when it is played two extremely different ways. That impresses the difference in results on his mind in the most convincing way. One feature which can be made extremely clear by that procedure is how cross-ruffing can increase the number of tricks taken by a particular trump holding.

♠ K 7 5 2  
♥ 4 2  
♦ 10 9 8 6 5 3  
♣ 8  
♠ 10 8 5  
♥ K J 6 4  
♦ 2  
♣ A Q J 2

(Dealer: South. Both sides vulnerable.)

South	West	North	East
1 ♠	2 ♠	2 ♠	Pass
3 ♠	Pass	3 ♠	Pass
4 ♠			

One observer of the lesson given on this deal said he would have jumped straight to 4-Spades on North's first turn. Another said he would have rebid 3-Spades instead of 3-Hearts in the South. A third said he would have passed in the North, that South then should have doubled. West would have followed with 3-Clubs and North would have doubled. But the teacher said the hand was not chosen for bidding, but to illustrate the point of play if West led a heart. And he surely made it clear.

### Looking Back In Pickaway County

#### FIVE YEARS AGO

Mrs. Elgar Barrere, West Union street, has returned after a visit with Miss Mary Barrere and other relatives in Hillsboro.

A radio program featured music composed by Ralph Barnhart, Long Island, New York, who is a son of Mr. and Mrs. C. R. Barnhart, Montclair avenue.

The Misses Vera Zaenglein and Doris Schreiner returned to their respective homes on East Mound street, after completing

"Suppose," he said, "South won with the heart K, ran four spade tricks and the heart A. That would make six tricks—two with the top hearts and four with trumps. South would then lose the rest of the tricks.

"But," he added, "if South, after winning that trick, uses his trumps one at a time, he can take eight tricks with them. He could get the first two tricks with hearts, trump a heart in dummy, then lead a club to his K. West would win that. Suppose he returned a diamond to the A, and East then led another club. South could criss-cross then, trumping four clubs in the South and four red cards in the North to take eight tricks that way. These, plus the two high hearts, would make ten."

"Now notice," he climaxed, "that if the defenders led a trump at any time, making two trumps play on one trick, only seven tricks could be taken with the eight trumps. And if the defenders led trumps twice, they would cut down to six the number takable by trumps."

#### Tomorrow's Problem

(Dealer: South. East-West vulnerable.)

Why should East not double South's 6-Hearts contract after South also had bid clubs and North spades?

## The HOLLOW

Copyright, 1946, by Agatha Christie Mallowan Distributed by King Features Syndicate

CHATTER. EDWARD SAID earnestly: "Henrietta, dearest, do believe this—that I do sympathize with you—in—in your grief, your loss."

"IS it grief?" The question startled him. She seemed to be asking it, not of him, but of herself.

She said in a low voice: "So quick—it can happen so quickly. . . . One moment living, breathing, and the next dead—gone—emptiness. Oh! the emptiness! And here we are, all of us, eating caramel custard and calling ourselves alive—and John, who was more alive than any of us, is dead. I say the word, you know, over and over again to myself. Dead—dead—dead—DEAD! . . . And soon it hasn't got any meaning—not any meaning at all. . . . It's just a funny little word like the breaking off of a rotten branch. Dead—dead—dead—It's like a tom-tom, isn't it, beating in the jungle? Dead—dead—dead—dead—"

"Henrietta, stop! For God's sake, stop!"

She looked at him curiously. "Didn't you know I'd feel like this? What did you think? That I'd sit gently crying into a nice little pocket handkerchief while you held my hand. That it would all be a great shock but that presently I'd begin to get over it. And that you'd comfort me very nicely. You are nice, Edward. You're very nice, but you're so—so inadequate."

He drew back. His face stiffened. He said in a dry voice: "Yes. I've always known that."

She went on fiercely. "What do you think it's been like all the evening, sitting around, with John dead and nobody caring but me and Gerda! With you glad, and David embarrassed and Midge distressed and Lucy delicately enjoying the News of the World come from print in real life! Can't you see how like a fantastic nightmare it all is?"

Edward said nothing. He stepped back a pace, into shadows. Looking at him, Henrietta said: "Tonight—nothing seems real to me, nobody is real—but John!" Edward said quietly, "I know. . . . I am not very real. . . ."

"What a brute I am, Edward! But I can't help it. I can't help resenting that John who was so alive is dead."

"And that I who am half dead am alive."

"I didn't mean that, Edward."

"I think you did, Henrietta. . . . I think, perhaps, you are right."

He was saying thoughtfully, harking back to an earlier thought:

"But it is not grief. Perhaps I cannot feel grief. . . . Perhaps I never shall. . . . And yet—I would like to grieve for John."

Her words seemed to him fantastic. Yet he was even more startled when she added, suddenly, in an almost businesslike voice:

"I must go to the swimming pool."

She slid away through the trees.

Walking stiffly, Edward went through the open window.

Midge looked up as Edward came through the window with un-

seeing eyes. His face was gray and pinched. It looked bloodless. He did not hear the little gasp that Midge stifled immediately.

Almost mechanically he walked to a chair and sat down. Aware of something expected of him, he said:

"It's cold."

"Are you very cold, Edward? Shall we—shall I—light a fire?"

Midge took a box of matches from the mantelpiece. She knelt down and set a match to the fire. She looked cautiously sideways at Edward. He was quite oblivious, she thought, of everything.

She said, "A fire is nice, it warms one. . . ."

How cold he looks, she thought. But it can't be as cold as that outside. It's Henrietta! What has she said to him?

"Bring your chair nearer, Edward. Come close to the fire."

"What?"

"Your chair. To the fire."

She was talking to him now, loudly and slowly, as though to a deaf person.

And suddenly, so suddenly that her heart turned over with relief, Edward, the real Edward, was there again. Smiling at her gently.

"Have you been talking to me, Midge? I'm sorry. I'm afraid I am—thinking of something."

"Oh, it was nothing. Just the fire."

The sticks were crackling and some fir cones were burning with a bright clear flame. Edward looked at them. He said:

"It's a nice fire."

He stretched out his long thin hands to the blaze, aware of relief from tension.

Midge said, "We always had fir cones at Ainswick."

"I still do. A basket of them is brought in every day and put by the grate."

Edward at Ainswick. . . . Midge half closed her eyes, picturing it. He would sit, she thought, in the library, on the west side of the house. There was a magnolia that almost covered one window and which filled the room with a golden green light in the afternoons.

Through the other window, Edward looked out on the lawn and a tall Wellingtonia stood up like a sentinel. And to the right was the big copper beech.

Oh, Ainswick—Ainswick. She could smell the soft air that drifted in from the magnolia which would still, in September, have some great, white, sweet-smelling, waxy flowers on it. . . . And the pine cones on the fire. . . . And the faintly musty smell from the kind of book that Edward was sure to be reading. . . . He would be sitting in the saddle-back chair, and occasionally, perhaps, his eyes would go from the book to the fire, and he would think, just a minute, of Henrietta.

Midge stirred and asked: "Where is Henrietta?"

"She went to the swimming pool."

Midge stared. "Why?"

Her voice, abrupt and deep, roused Edward a little.

"My dear Midge, surely you knew—oh, well—guessed. She knew Christy pretty well. . . ."

"Oh, of course, one knew that! But I don't see why she should go."

Present at Birth

This disorder may be present at birth, particularly in boy babies, though usually it comes on at six weeks of age, causing vomiting, followed by loss in weight and, eventually, starvation.

Apparently, pyloric stenosis varies greatly in its severity, that is, the closure may be more or less complete. Thus the type of treatment varies with the severity of the condition.

When pyloric stenosis is present in the new-born baby, it is important to recognize it early so that it can be treated at once before the child's condition becomes worse through lack of nourishment.

Treated Medically

Mild cases, it appears, may be treated medically. This medical treatment, according to Dr. Wilfred J. Pearson of England, consists in washing out the stomach with a ally increased.

After the operation, small quantities of food are given at each feeding, and then the amount gradually increased.

As a general rule, breast milk is the best food for these babies. In some cases, however, it may be necessary to give thickened cereal feedings. The amount of food given at each feeding should be small, and the feedings given at more frequent intervals than usual, that is, every three hours.

In severe cases of pyloric stenosis, operation is required. If the operation is done early, and the baby is put in the best possible condition before operation, the operation is usually quite successful. Any dehydration present must be corrected before the operation is performed. Blood transfusion, that is the injection of whole blood into a vein, is often helpful.

After the operation, small quantities of food are given at each feeding, and then the amount gradually increased.

As a general rule, breast milk is the best food for these babies. In some cases, however, it may be necessary to give thickened cereal feedings. The amount of food given at each feeding should be small, and the feedings given at more frequent intervals than usual, that is, every three hours.

In severe cases of pyloric stenosis, operation is required. If the operation is done early, and the baby is put in the best possible condition before operation, the operation is usually quite successful. Any dehydration present must be corrected before the operation is performed. Blood transfusion, that is the injection of whole blood into a vein, is often helpful.

After the operation, small quantities of food are given at each feeding, and then the amount gradually increased.

As a general rule, breast milk is the best food for these babies. In some cases, however, it may be necessary to give thickened cereal feedings. The amount of food given at each feeding should be small, and the feedings given at more frequent intervals than usual, that is, every three hours.

## Nu Phi Mu Sorority Members Have Meeting

### Etiquette Topic Of Discussion At Session

Nu Phi Mu sorority members of the Ohio Alpha Theta Chapter, junior sister organization of Beta Sigma Phi sorority, gathered Tuesday evening in the home of Miss Donna Lee Reid, East High street, for their regular semi-monthly meeting.

Mrs. Clyde Wells, advisor of the unit, opened the meeting of the chapter by offering a prayer. Miss Anna Sue Reichelderfer, president, presented the ritual service and lead the salute to the flag. Roll call was answered by seven members.

Miss Anna Marie Workman, corresponding-secretary, in the absence of Miss Edna Maynard, recording-secretary, read communications and routine reports, also the minutes of the previous meeting. Chairmen of various standing committees submitted their reports.

Miss Mary Lou Crum lead a round table discussion on the relation to personal reactions in events in etiquette. Miss Reichelderfer read an article on first meeting impressions. Friendship circle and closing ritualistic ceremony concluded the business session and program. Hostess served refreshments. Next meeting will be in the home of Miss Barbara Green, North Court street.

## Presbyterians To Picnic On Thursday

Brotherhood of the Presbyterian church is sponsoring the annual picnic and social event, Thursday afternoon and evening at the Harry Montellus farm on the Kingston pike. All members of the church are extended invitations to attend the affair.

Activities are slated to begin at 4 p. m. with supper and refreshments to be served beginning at 6 o'clock. Special transportation will be provided for any who need it, if they will gather at the church at 4:30 p. m.

Plenty of out of door games and contests are being arranged by members of the Brotherhood. Robert G. Colville is in charge of all arrangements and is being assisted by J. O. Eagleson and various members of the organization. All food will be furnished but members of the church are requested to bring their individual table service.

### HOUSEHOLD HINTS

Keep your refrigerator sweet and clean; a cleaning once week is preferable. As soon as anything is spilled in a refrigerator it should be wiped up immediately. Mechanical refrigerators need periodic defrosting of the freezing unit, because moisture from the air and from foods is drawn to the unit. After defrosting, remove shelves and wash the interior of the refrigerator in suds to which a little soda has been added. Rinse with clear water and wipe dry.

## Calendar

**WEDNESDAY**  
MT. PLEASANT GRANGE, IN Mt. Pleasant church, at 8:30 p. m.

**WASHINGTON GRANGE, IN** Washington township school building at 8 p. m.

**WESLEY - WED SUNDAY** school class of First Methodist church, pot-luck supper, in the home of Mr. and Mrs. Roloff Wolford, route 3, at 6:30 p. m.

## Willing Workers Class Has Meeting In Holderman Home

Members of the Willing Workers Sunday school class of the Pontius Evangelical United Brethren church, assembled in the home of Miss Edwina Holderman, Washington township, for their July meeting.

Mrs. Walter Richards, vice-president, opened the program in the absence of Mrs. Sterley Croman, president, and presided during the meeting. Group joined in singing "Tis So Sweet To Trust In Jesus".

Mrs. Creighton Kraft presented the afternoon's devotion. Prayer was offered by Mrs. A. W. Bosworth. Eighteen members answered roll call conducted by Mrs. Larry Goodman, secretary. She then read the minutes of the previous meeting. Mrs. Ned Groom was a guest at the meeting.

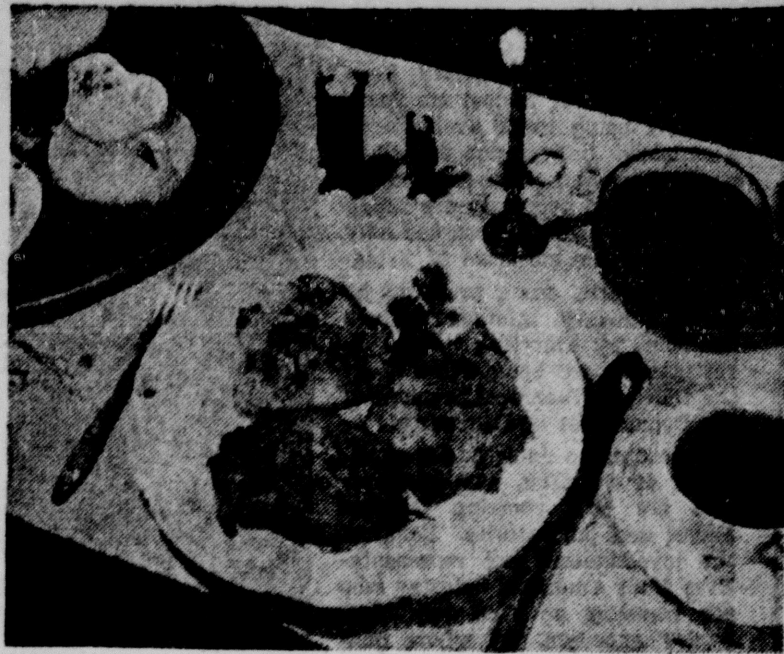

Plans were made for the August meeting to be held in the home of Mrs. Kraft, East Franklin street. Miss Hulda Leist will be in charge of the program. Miss Holderman will direct the devotion.

Mrs. Bosworth was leader of the day's program, which consisted of selected readings and contests. Mrs. Ethel Klingensmith read, "Life Creed" and Miss Leist read, "Our Things". "Death Loved Him" and "The Story of Onward Christian Soldiers" were read by Mrs. Bosworth.

Contests entitled, "What Kind of a Neighbor are You?" and "Garden Vegetables" were conducted. Mrs. Kraft read at the close of the program "Three Things to Live By". Refreshments were served by the hostess during the social hours.

Mr. and Mrs. C. F. Replogle, Montclair avenue, were Tuesday visitors in Newark.

## EGGS, CHINESE STYLE

China furnishes the inspiration for Eggs Foo Yung, a different way of serving eggs now that they're plentiful.

By BETTY NEWTON

Boiled, scrambled, or fried—these are the forms in which eggs usually appear on our American tables. The Chinese, however, are "one up on us." Their cooks have worked out dozens of ways of preparing eggs.

The Chinese mingle many flavors to produce a new and enchanting one. Their soy sauce, made by fermenting soy beans and pickling them in brine, is used in place of salt. The mushrooms, celery and bean sprouts in Eggs Foo Yung dress up the eggs a bit—and stretches them, too.

Eggs Caliente with rice patties is a recipe from down Mexico way. Eggs and rice are a delicious flavor combination, and the green pepper and tomatoes in the sauce make a colorful platter!

**Eggs Foo Yung**  
1/2 lb. sliced fresh mushrooms  
4 Tbsp. butter or margarine  
1 C. sliced onions  
1 C. sliced celery  
4 eggs  
1/2 tsp. salt  
Pepper  
1/2 C. well-drained bean sprouts

Wash and peel mushrooms. Chop or dice. Sauté in 2 tablespoons butter or margarine about 5 minutes. Add celery and onions, sauté about 5 minutes longer. Do not brown, they should be crisp. Cool. Beat eggs until light, add salt and pepper and combine with sautéed vegetables and bean sprouts. Melt the rest of the butter or margarine in a skillet or on a griddle. Drop large spoonfuls of mixture in skillet; cook over low flame, turning once. Makes 8 3-inch patties. Serve with Chinese Sauce.

**Chinese Sauce**  
1 1/2 C. water  
1 Tbsp. cornstarch  
2 Tbsp. soy sauce

### PICNIC PLANNED

Members of Harper Bible class of the First Evangelical United Brethren church will have a basket picnic dinner Sunday noon, in Rising Park at Lancaster. Group will go to Lancaster immediately following morning

Combine water and cornstarch. Cook until thickened, stirring constantly. Cook 5 minutes, then add soy sauce. Serve hot. Makes 1 1/2 cups sauce.

**Eggs Caliente With Rice Patties**  
1 Tbsp. Worcestershire sauce  
1 Tbsp. dry mustard  
1 Tbsp. chili powder  
6 eggs  
6 Tbsp. milk  
4 Tbsp. butter or margarine  
1/2 tsp. lemon juice  
1/2 tsp. salt

Beat eggs and add milk. Melt butter in skillet and add lemon juice, mustard, chili powder, salt and Worcestershire sauce, and mix well. Pour in eggs and cook until eggs are creamy, stirring constantly.

**Sauce**  
1 small green pepper, chopped  
1 medium onion, sliced  
1 Tbsp. flour  
1/2 tsp. salt  
1/2 tsp. pepper  
1 C. cooked peas  
2 C. cooked or canned tomatoes  
1/2 tsp. sugar  
1 Tbsp. fat

Sauté onion and green pepper in melted fat until soft. Add flour, peas, tomatoes, sugar, salt and pepper. Cook slowly ten minutes. Serve over egg mixture on rice.

**Rice Patties**  
3 C. cooked rice  
2 Tbsp. butter or margarine

Spread rice one inch thick in shallow pan. Press down well and cut into rounds with a biscuit cutter. Place on a greased pan. Add a dot of butter or margarine on each and brown at 400 degrees or in a small amount of fat in a skillet. Arrange egg mixture on rice patties and pour sauce over them.

## Kerns Reunion Held At Logan Elm Park; Officers Elected

Fifty-three members and friends of the Henry and Julia Ann Kerns families gathered at Logan Elm park Sunday for a family reunion.

During the business session, the group decided to make the reunion an annual affair, and officers were elected for the ensuing year.

Mrs. Floyd Arledge was elected president and Mrs. Hattie Metzger, secretary-treasurer. A short program followed which consisted of readings, songs and recitations by various members. Betty Glick presented a group of accoridian numbers. Gerald Dunkle concluded the meeting by offering a prayer. Date for the 1948 reunion was set for the third Sunday, in July, at the Logan Elm park.

Among those present were Mr. and Mrs. Dan Kerns, Mr. and Mrs. Roger Stimmell, and James and David Stimmell, West Minister; Mr. and Mrs. A. D. Kerns, and Mildred Kerns, Mr. and Mrs. Harry Arledge, Marvene and Robert Arledge, Mr. and Mrs. Floyd Arledge, Doris Arledge, Mrs. Polly Chester, Mr. and Mrs. Rufus Kerns, Mr. and Mrs. Lawrence Kerns and Larry Kerns, Mr. and Mrs. Paul Kerns and Vicki, Kingston;

Mrs. Jacob Glitt, Betty Glitt, Mr. and Mrs. Glen Kerns, Eugene and Charles Kerns, Mrs. Hattie Metzger, Donald and Carol Metzger, Mrs. Minnie Kerns, Dr. D. V. Kerns, Mrs. Kerns, and daughter, Donna Jean Kerns, Mr. and Mrs. Carl Anderson and Terry Roger, and Helen Dunkle, Circleville.

Austin Kerns, Tarlton; Mr. and Mrs. Renick Valentine and Marilyn Valentine, Mr. and Mrs. Gerald Dunkle, Robert Dunkle, Logan; Miss Ara Drake and Mrs. Mary Cromwell, Greenville, and Mrs. Edward Gerhart, Washington C. H.

Mrs. Emmitt Morgan, East Main street, and Miss Mary K. Morgan, who is on vacation from the nurses' home at Lancaster, have been guests of Mr. and Mrs. Gene Hastings, in their home on route 3.

# German Science Now Serving American Industry

## Nazi War Secrets May Help Raise U. S. Living Standard

By JOHN L. KENT

Central Press Correspondent  
WASHINGTON—German industrial secrets which helped keep Germany at war almost six years are now being made available to Americans. Information contained in government reports on German machines and processes are filling gaps in our own research and may help raise our standard of living.

The reports, some prepared by Allied military intelligence men and some by American civilian investigators, are being released by the Office of Technical Services of the Department of Commerce.

According to John C. Green, director of the OTS, our investigators are still combing German plants and laboratories. Some of the investigators are representatives from American industry who are traveling on their own companies' expenses, but whose findings will be made available to all.

Anyone interested in a German process or machine can get a copy of the appropriate report. Some 360,000 reports have already been sold to the public at the cost of reproduction.

To supplement the reports, actual machines are often brought to the United States for evaluation by American experts.

Last month several thousand representatives of the American machine tool industry attended a month-long exhibit of outstanding German machine tools at the Frankford Arsenal, Philadelphia.

SOME TOOLS, it is believed, will suggest modifications in American machine tool practice. One precision grinding machine that attracted major interest has a novel optical system which enables the operator to compare his work with the engineer's drawing as the work proceeds.

Among the items brought back last year is the magnetophone, a portable record player and recorder which uses magnetized paper tape instead of conventional discs. American firms are now producing this type of recorder.

Another device is the photophone, which transmits sound over a diffused light beam or over an extremely narrow beam of white, red or invisible infra-red light.

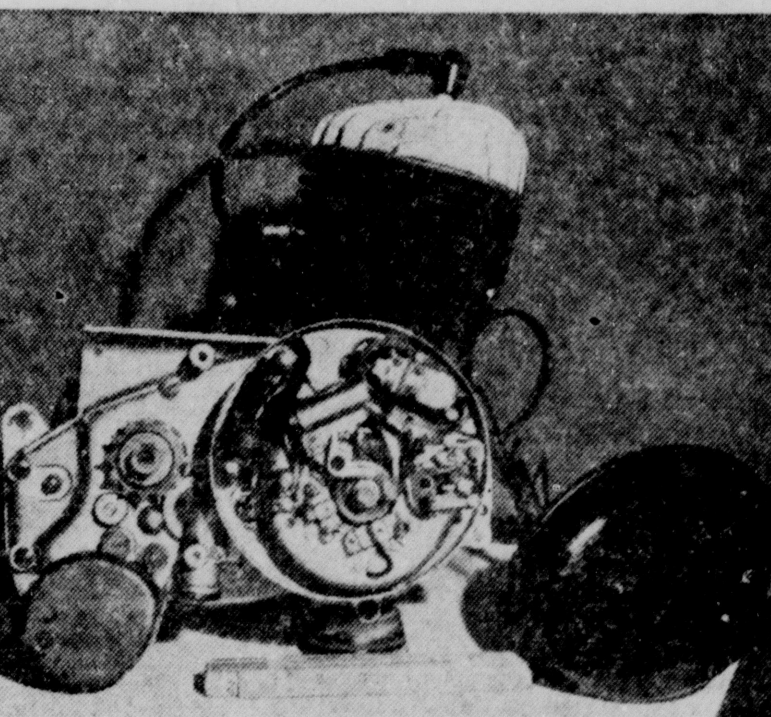

It was used for short distance communication especially over rivers and valleys where telephone wires could not be laid. The instrument resembles a pair of oversized binoculars. The Germans found it valuable, because, unlike the radio, it cannot be intercepted.

Thousands of reports reflect German automotive and aeronautical progress. Lloyd D. Worden, chief of the automotive and aeronautics unit of the OTS, stated recently that full production of the German Volkswagen, or peoples car, might have had a marked effect in the world automobile market.

The Volkswagen is a two-door coach with a four-cylinder air-cooled engine located in the rear.

PHOTOPHONE—This German device was used for voice communication over distances up to five miles over a beam of white, red or invisible infra-red light. Edwin Y. Webb demonstrates its workings.

SMALL BUT MIGHTY—A German motorcycle engine showing 125 cubic centimeter motor and complete electrical system in a six-inch casing.

The car is about 14 feet long and weighs only 1,500 pounds. Hitler ordered the car designed in 1936, specifying that it should be made to sell for less than 1,000 Reichsmarks (\$400).

Manufacturing plans were in an advanced stage just before war broke out, with the plant scheduled to turn out 1,000 cars a day. After war began, the Volkswagen became the German jeep. The plant is now producing several thousand cars a month under British supervision.

For military purposes the Germans built several lightweight motorcycles, the motor of one being so small that its entire electrical system fitted into a 6-inch round casing.

Constant threat of a possible food shortage led the Germans into extensive food research on substitutes.

One of their developments was synthetic butter made from chemicals. One firm made 11,000 pounds a day. Most of it was sold to hospitals where it was favored for certain diets.

German researchers also succeeded in simultaneously pasteurizing and enriching the vitamin D

content of milk by means of ultra violet light.

German formulas for cosmetics and perfumes, complete with process details, were brought to the United States several months ago by Dr. Stephen A. Karas, a consulting chemist who, as special investigator for the OTS, spent five months in Germany.

DR. KARAS' TRIP was financed by the cosmetic industry. Information obtained may be of great value in making the American cosmetic industry independent of foreign manufacturers.

German advances in optical and photographic fields are evident in many of the reports. The Germans had, for example, a motor-driven 35-millimeter motion picture camera with a reflex view finder that enables the operator to see exactly what the photographic film is recording.

The camera, made of aluminum and magnesium, is very light and therefore especially useful for hand-held operation in news photography. The film magazine holds a 400-foot reel of film. A 10-pound battery, carried by the photographer, powers a motor that drives the camera shutter and reels.

Many of Germany's secrets in electronics, communications and color photography may be lost to American manufacturers unless they send investigators to Germany immediately, Green declared recently.

The signing of the peace treaty and the return to more normal conditions in Germany will probably mean an end to American industrial investigations, and consequent loss to the American people.

## ASHVILLE

Miss Bonnie Mae Hunt, Columbus, a former resident, was a visitor in Ashville over the weekend.

Mrs. R. D. Shauk has been visiting with her husband at Camp Muskingum since Sunday. The Shauks expect to return home today.

Semi-annual installation of officers will feature the meeting of Palmetto Lodge tonight. Refreshments will be served. Members are urged to be present.

Miss Betty Devors, Herald carrier on the West side, is ill with tonsillitis.

A number of young people surprised Mr. and Mrs. Frank Hinkle with an old-fashioned bell at the bride's home. Refreshments were served.

The local Boy Scouts met at the home of Robert Swoyer Tuesday evening.

The Rev. H. D. Fudge, Mary and Dickie left Sunday for a vacation fishing trip in Michigan.

## LAUSCHE CALLS FOR IMPARTIAL LIQUOR PROBE

CLEVELAND, July 23 — Former Gov. Frank J. Lausche asked today in Cleveland that probers investigating the state liquor department seek to answer two questions.

Calling for an "objective, impartial" investigation in the interests of citizens, Lausche said he thought they should know why liquor supplies have been increased by more than \$17,000,000 since he left office if his department had overstocked.

He also asked that figures be released showing how much slow-moving supplies, especially liquors, brandies and rums, his department inherited from the previous administration of Republican Gov. John W. Bricker.

Lausche said he would like to know how much has been added under Republican Gov. Thomas J. Herbert, who ordered the probe.

The former Democratic chief

executive quoted a report made by liquor director Dale Dunifon giving the inventory as of May 31 at \$56,731,631.

"When I left the governorship," Lausche said in his statement, "the state had on hand, in stores and warehouses, \$25,611,144 worth of liquor, and had on order, to be delivered, liquor in the value of \$13,535,630, making a total of \$39,146,775."

The highest iron mines in the world are in operation in the Pamir mountains, in Soviet Central Asia. They are reached by a gorge-scaling funicular railway that rises 8,200 feet in 15 miles.

GRAB BAG

**One-Minute Test**  
1. What name is carried by more U. S. counties than any other?  
2. Who was the first president of the Continental Congress?  
3. Which of the United States possessions was once known as "Seward's Folly"?

**Words of Wisdom**  
Good will, like a good name, is got by many actions, and lost by one.—Jeffrey.

**Hints on Etiquette**  
For formal and semi-formal daytime weddings, a man wears an ascot tie, or four-in-hand in plain colors of blue, gray or black. He may wear stripes or figures in combination with white, light gray, blue or tan, or a bow necktie in the same colors.

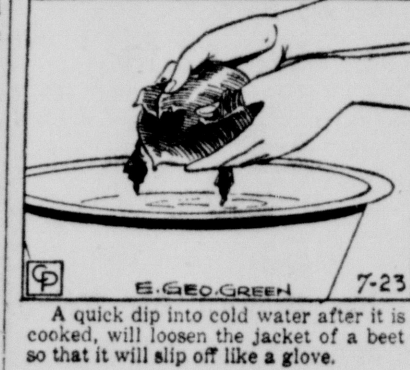

**Today's Horoscope**  
A birthday anniversary today means that you are energetic, vivacious, and rather talkative. You are very fond of gaiety and social life and like to have an active part in anything you undertake. You are not demonstrative in your love and require affection and understanding from your mate. Today's influences are adverse. Don't commit yourself. Lack of harmony or sociability is indicated. Your fortunes and happiness in your next year will grow apace. Utilize the same fully. Court, marry and make new friends. Intellectual and social pursuits are well signified, also new business adventures. Today's child will exhibit great charm of manner and be a general favorite—probably a genius in one of the arts. A long, happy, successful life is prognosticated.

**One-Minute Test Answers**  
1. Washington; 29 states have counties so named.  
2. Peyton Randolph of Virginia.  
3. Alaska.

The government of New Zealand has just designed and approved the New Zealand Memorial Cross. It is to be given to mothers and widows of New Zealand servicemen who were killed or died in active service, or whose subsequent death was attributed to war service.

Leave It" if he so desires.  
A compact firm is interested in sponsoring "Leave It To The Girls".  
Groucho Marx is reported planning to become an independent radio producer.  
Hal Kanner is being discussed as a musical director for Hildegarde's transcribed radio series.  
Kenny McCord, of the Broadway show "Brigadoon" may get the next buildup as a solo warbler.  
Dick Haymes returns to his show on Thursday, September 11.  
Bill Stern vacations from his "Sports Newsreel" on July 25 with Eddie Cantor, Frank Sinatra and John Garfield slated to pinch-hit for him.

#### DUTCH ACCUSED OF USING JAPS IN THEIR RANKS

Indonesian Republicans Said Being Pushed Back On Three Fronts

BATAVIA, July 23—Dutch government forces, accused by Indonesian Republicans of using Japanese soldiers in their ranks, advanced in many-pronged drives toward key centers in the Dutch East Indies today.

Broadcasts from the Republican radio station at Jogjakarta told of fresh amphibious landings and progress southeast of Bandung along the road and railway leading to Jogjakarta itself, the nationalist capital.

THE LATEST Republican army communique said:

"Dutch troops driving southward from Soerabaya occupied Lawang, 12 miles north of Malang and now are approaching Singosari, eight miles north of Malang.

"Indonesians are advancing on Semarang from the west. They made headway and succeeded in nearing the outskirts of the town.

"Fifty Dutch bren gun carriers and tanks are pressing on in the direction of Tasikmalaya after occupying Tjitalangka. Dutch planes bombed Garoet, 20 miles southeast of Bandung, machine-gunned a hospital and later bombed and machine-gunned Lelas, a few miles from Tjitalangka."

Maj. Gen. Boeng Torno of the Republican army was quoted by the nationalist radio as saying: "We must attack the Dutch (Continued on Page Two)

#### SECRETARY SAYS OFFICERS OF CIO UNION ARE REDS

WASHINGTON, July 23—A woman union secretary and member of the Communist party charged today that 16 of the top 30 officers of the Winston-Salem, N. C., local of the CIO food, tobacco and agricultural union are active Communist party members.

The accusation was made before the house un-American activities committee by Ann Mathews who served as recording secretary for the local and as treasurer for the Carolina regional Communist organization.

She listed 16 members of the union's executive board as "definitely Communists," four others who "may be Communists" and the remaining ten as having no connection with the party.

The witness estimated there were 150 Communists in Winston-Salem. She reported that the local Communist party received \$100 a month from national headquarters.

#### ONE MAN'S OPINION

By Walter Kiernan

The National Institute of Diaper Services warns that the nursery produces many a neurotic. This opens a new field for the psychoanalyst with a crib.

The evidence is that a man who was improperly rigged as a baby grows up with the feeling that he is slipping—or that something is.

This produces the condition known to modern specialists as "diaper-dizzy."

But it's maddening to realize that Hitler might have grown up quite normal with a change in baby-tenders—or at least a change.

Because of him we're still trying to figure out how to get one world—without one boss.

Anyway the word of the diaper institute should be taken as authoritative—it is practically the Sorbonne of the small fry.

PRESIDENT of the Indonesian Republic, Achmed Soekarno (left), and Vice Premier A. T. K. Gani, appear together during broadcast in Batavia before outbreak of hostilities with the Dutch.

LEADER of Dutch forces, Lt. Gen. S. H. Spoor assures the world that his troops are not launching a war against the Indonesian people but only against "those elements who try to sabotage the sincere implementation of the Linggadjati pact."

### 40 to 50 Feared Dead In Berlin Explosion

BERLIN, July 23—Six bodies were recovered today within a short time after a powerful explosion wrecked security police headquarters in the Soviet zone

of Berlin. Early reports indicated a possible casualty list as high as 40 or 50.

Eight injured persons were taken from the ground floor soon after the blast, which reports said might have been touched off by anti-Soviet agents.

Fire swept through the ruins immediately afterward, hampering rescue efforts and increasing fears that the death toll may be raised. Other victims were feared trapped within the debris.

Several high department chiefs were believed among the dead.

It was impossible immediately to ascertain casualties in the two upper floors of the building.

The explosion originated in a storeroom where confiscated explosives were housed.

In addition to the anti-Soviet theory of responsibility, authorities said the blast might have been an act of revenge on the part of former Berlin policemen, many of whom were dismissed in a "purge" last month.

#### TRUMAN VISITS SENATE

WASHINGTON, July 23—President Truman broke precedent today by entering the senate chamber where he served for 10 years and taking his old seat for a brief visit with his ex-colleagues. The President's surprise came at the close of an informal luncheon with Republican and Democratic senators in the capitol.

### OFFICIALS STILL DIFFER OVER BABIES' DEATHS

MASSILLON, O., July 23—The breach between authorities over how two infant girls met their deaths in Massillon city hospital June 6 widened today after a six-year-old boy changed his story of what happened.

Mrs. Roger Gue said that her son continued to give different versions although Massillon police chief Stanley W. Switzer closed the case when young Roger first admitted playing with the babies.

The chief refused to participate longer in the 48-day investigation and accused Stark county prosecutor D. Deane McLaughlin of "changing his mother's mind." The prosecutor has maintained that the tiny girls, about 10 weeks old, were murdered.

### Pilot Who Holds World Speed Record Says Man Will Go Faster Than Sound

WASHINGTON, July 23—The pilot who holds the world's speed record predicted today that man will go faster than sound—and "not in the distant future."

Col. Albert Boyd, who set the world's record of 623.8 miles per hour on June 19 in an Army jet-propelled P-80, told reporters he has no doubts that planes will reach supersonic speeds in excess of 750 miles per hour.

Furthermore, Boyd said that he doesn't believe there is any limit to the speed that man can go in level flight.

HE POINTED out, however, that pilots of planes reaching supersonic speed must be protected from rapid acceleration and deceleration of their aircraft and quick changes in temperature.

### U. S. TO CHECK ON TESTIMONY

Kravchenko Story Turned Over To Government Agents For Action

By International News Service Rep. Thomas (R) N. J., reported in Washington today that testimony of Victor Kravchenko charging that Russian officials in the United States had stolen American airplane and submarine secrets will be turned over to government agents for further action.

Thomas revealed that the committee secretly was given the names of Russians engaged in the espionage work. He said that these and the record of Kravchenko's testimony in full will be delivered to the FBI and Navy and Army authorities.

KRAVCHENKO charged that the Soviet purchasing mission with which he served in New York, had obtained detailed plans, photographs, blue-prints and notes on U. S. planes during the war. He asserted that the material was delivered personally to Moscow by a Soviet official enjoying diplomatic immunity. At the same time, the United States was reported still willing to leave the door open for participation of Russia and her satellites in the Marshall plan for Europe's reconstruction as well (Continued on Page Two)

### BRITISH SHIP SUNK BY BLAST IN HAIFA PORT

11 English Troops Injured In Other Violence In Holy Land

JERUSALEM, July 23—The British ferry ship "Empire Life-guard" was sunk and at least 11 British troops injured today as the Palestine underground intensified its campaign of violence.

A mighty explosion, which shook the North Palestine port of Haifa, tore a 48-square-foot hole below the waterline of the transport used in shifting Jewish immigrants between the Holy Land and Cyprus.

Within a short time, the ship settled beside the quay where 300 Jewish refugees had just been disembarked. Forty or 50 other immigrants, who had just been brought from Cyprus, were aboard when the blast occurred. No one was hurt.

AN OFFICIAL announcement, meanwhile, said that one British officer and six soldiers were injured when their truck was blown up near Rishon Lezion, in the Tel Aviv area. One of the injured was in serious condition.

The mine, which was electrically detonated, consisted of two four-gallon gasoline cans filled with rivets.

In the Mount Carmel region, four other troops were injured when a land-mine knocked their military vehicle into a roadside ditch.

HAGANAH, so-called Jewish defense army and most moderate of the Palestine underground factions, was believed responsible for placing the explosive charges which shook the ferry ship.

Jerusalem observers pointed (Continued on Page Two)

### LEGION URGES REVISIONS IN UNITED NATIONS

WASHINGTON, July 23—The American Legion today called for reorganization of the UN security council and world court, abolishment of the veto in aggression cases, rigid control of atomic weapons and establishment of a strong world police force.

The Legion proposed to congress that these recommendations be carried out in adoption of three "tyranny-proof" amendments to the United Nations charter.

The recommendations were contained in letters dispatched to each member of congress by John Thomas Taylor, national legislative director of the American Legion.

### Pickaway Farmers Face Big Wheat Crop Loss As Freak Weather Continues

Preview performance of late Autumn, presented on the Circleville stage Tuesday night, is scheduled for a repeat performance Wednesday night.

Farmers throughout the Circleville area were more worried, Wednesday, about the excess moisture damage to wheat crops than about the freakish weather.

Heavy damage already has been inflicted on wheat crops, and Larry A. Best, Pickaway county agricultural agent, said the losses will be heavier unless the weather turns warm and dry—and stays that way for awhile.

THE HIGH temperature reading Tuesday was 71 and the mercury plunged to an unseasonable low of 47 degrees early Wednesday morning. The reading at 8 a. m. Wednesday was 57. Several light showers occurred Tuesday afternoon and night. Shortly before 4 p. m. Tuesday there was an unheralded and unpredicted shower. Under azure skies and with the sun beaming the rain descended for approximately 10 minutes.

The official forecast said temperatures will remain cool—without rainfall—through Wednesday night and Thursday until in the afternoon when the mercury is scheduled to rise.

MEANWHILE farmers were

surveying their wet fields and watching hay spoiling on the ground, their unharvested wheat ripening, and the ripening of their backward corn slowing down.

Many farmers, County Agent Best asserted, face heavy loss because of inability to harvest wheat crops as a result of phenomenonally wet and cold weather. The combining of wheat has been delayed several weeks because of the almost daily rain. (Continued on Page Two)

### OHIOANS SHIVER AS 'COLD' STAYS

Low Records Set In Many Places; Hail Impedes Highway Traffic

By International News Service Record "cold" temperatures hung on in Ohio today, with another chilly night scheduled before the mercury starts getting back to its normal July trend.

The weatherman discounted rumors of snow in northern Ohio yesterday, but said there were many reports of hail drifting to four and five inches to impede highway traffic at times.

Temperatures last night dropped to as low as 41 degrees at Zanesville, with the highest minimum being 51 degrees at Perry.

FORECASTERS blamed extremely cool northern winds blowing across Lake Erie for the somewhat unusual summer disturbances. Rain and hail, however, were confined mostly to northern Ohio.

Columbus was one of the many places with record low temperatures for the last two days. Yesterday the capital city had 53 degrees, compared with 55 on the same date in 1890, and this morning a low of 52 against 55 set in 1925.

For the same July 23, Cleveland this morning had a low of 50 compared with the previous record of 51 degrees in 1886.

Other low temperatures this morning were 42 at Jackson, 44 at Canton, 45 at Wilmington and 47 at Akron, East Liverpool, Hayesville, Youngstown and Parkersburg, W. Va.

FORECASTERS said that temperatures over Ohio today would range between 57 and 75 degrees, between 45 and 50 degrees (Continued on Page Two)

### TRUMAN SIGNS BILL GRANTING AMVETS CHARTER

WASHINGTON, July 23—President Truman today signed a bill granting to Amvets the first government charter extended to a World War II veterans organization.

The measure, passed unanimously by the house and the senate, gives Amvets the same status as the American Legion, the Veterans of Foreign Wars, the Disabled American Veterans, and the United Spanish War Veterans.

The signing ceremonies were witnessed by Ray Sawyer, Amvets national commander, and six national vice commanders.

The organization—officially known as American Veterans of World War II—was formed three years ago and has 120,000 members in more than 1,000 local posts throughout the United States.

#### RUSSIA REJECTS BID

LONDON, July 23—The Moscow radio broadcast tonight a Soviet reply to an invitation from the United States for participation in preparatory Japanese peace treaty talks on August 19. It constituted a virtual rejection.

### OSBORN TELLS RUSSIA THERE IS NO CHANGE

UN Delegate Says America Will Stand On Baruch Plan For Violators

LAKE SUCCESS, N. Y., July 23—The United States served notice on Soviet Russia in the United Nations today that it stands flatly on the Baruch plan's prohibition of the veto in the punishment of atomic code violators.

The announcement added that the United States will not be a party to any change in the principle of that provision.

Frederick Osborn, U. S. representative on the atomic energy commission, made his disclosure at the resumed meeting of the 12-nation atomic working committee in replying to Soviet delegate Andrei Gromyko's insistence that the veto be retained.

Osborn asked for a postponement of further debate of the veto question on the grounds that the problems of sanctions cannot be adequately considered before the next report of the atomic energy commission is due in the security council.

IN REAFFIRMING United States support of the most important provision in the Baruch plan, Osborn directly admitted that Soviet Russia and the western powers are as far apart as ever on the major principles of atomic control.

Osborn said that the clear-cut issue before the commission is simply "whether there shall be any legal right, by veto or otherwise, whereby a wilful violator of the terms of the treaty or convention shall be protected from the consequences of violations of its terms."

The United States delegate added:

"The view of ten members of this commission as expressed by their adherence to the year end report is that no such right should exist. This is the principle which was first enunciated on behalf of the United States by Mr. Baruch on June 14, 1946. The United States has held consistently and un- (Continued on Page Two)

### GOP COMMITTEE FAVORS PRICE, HOUSING PROBE

WASHINGTON, July 23—The senate GOP policy committee gave its approval today to proposals for an investigation this summer of the housing and consumer price problems.

Chairman Taft (R) Ohio, announced that the committee had generally sanctioned a list of almost a dozen special requests for investigative authority or funds for use during the congressional recess.

They include inquiries into the RFC and other lending agencies, immigration policy, social security, Maryland and West Virginia elections, agriculture, and District of Columbia police.

The housing inquiry was sponsored by Sen. McCarthy (R) Wis. Taft said he understood McCarthy had an agreement to get the request through the house before congress adjourns Saturday.

It calls for a joint committee to investigate the lag in the construction industry, particularly on housing.

Sen. Baldwin (R) Conn., has proposed that a sub-committee of the joint economic committee investigate consumer prices during the recess. Taft said he saw no controversy in either proposal.

#### BABY'S DEATH PROBED

COLUMBUS, O., July 23—A coroner's verdict was expected today in the death of a two-month-old Columbus baby who apparently suffocated in his crib. The baby, Joseph Merle Lloyd, only child of the Reese E. Lloyds was found dead by his mother yesterday afternoon. Mrs. Lloyd told sheriff's deputies she shortly after 6 a. m. she said she overslept and did not find the body of the child until about one o'clock.

### FOREIGN HELP FUND BOOSTED BY COMMITTEE

WASHINGTON, July 23—The senate appropriations committee boosted the funds for President Truman's overall foreign aid program by 177 million dollars today, placing the big supplemental appropriation bill in position for action before adjournment Saturday.

The measure is one of the keys to whether congress can complete its work this week. The senate committee put back in the bill 175 million dollars cut by the house from Mr. Truman's request for relief in occupied Germany, Japan and Korea. The house had allowed only 550 million dollars of the 725 million requested by the war department.

The senators made the restoration by granting 625 millions in cash and 100 millions in contract authorization.

unusual sensations" during his record-breaking flight over Mud Lake, Calif. Flying at an altitude of 30 feet, he once reached a speed of 647.1 miles per hour during a test run.

The 40-year-old pilot declared that he saw no indications during his flight of vibrations which some scientists believe will cause a plane flying at supersonic speed to disintegrate.

Although he claimed he had suffered "no ill effects" from flying faster than any other man, Boyd indicated that he thought it is a young man's business.

He said pilots flying combat aircraft should be between 20 and 35 years old.

BOYD SAID that he had "no

## OSBORN TELLS RUSSIA THERE IS NO CHANGE

(Continued from Page One) equivocally to this principle throughout these negotiations. It holds unequivocally to this principle now.

"In our view, no useful purpose could be served by engaging in any lengthy debate on this principle at this time. As far as the United States is concerned, all that needs to be said on this principle has been said many times before. I have no wish to add or detract from what has been said on this matter by my most able predecessor."

OSBORN CONCLUDED by re-emphasizing that "the United States stands firmly behind the atomic energy commission's veto recommendations and will not be a party to any change in the principle which it contains."

The atomic working group agreed without objection to an indefinite postponement of the veto issue and skipped to consideration of the tenth of twelve Soviet amendments to the Baruch plan.

Previously, Gromyko maintained that the exercise of the veto was an integral provision of the charter and a basic function of the security council. He asserted that any attempts to limit the functions and rights of that body "are doomed to failure." He reiterated that the Soviet delegation cannot accept the Baruch plan's ban of the veto on punishment matters.

## U. S. PROBING PRICES CHARGED FOR NEWSPRINT

WASHINGTON, July 23 — A special house committee disclosed today that the government is investigating reports that publishers and printers have been charged "unconscionable prices" for newsprint and other paper by some suppliers.

The newsprint committee headed by Rep. Clarence J. Brown (R) Ohio stated that legal action may result against the concerns which "had taken advantage of the shortage situation and of the dire need of publishers and printers."

The committee declared that "some newsprint and paper is still being sold at exceedingly high prices through more or less 'under-cover sales'."

In an interim report to the house, the committee asserted that "manufacturers' earnings are especially good at the present time and the committee can see no justification for any further paper price increases." Instead, it added, they should be reduced.

The seven-member group has received an invitation to confer with Canadian officials in Canada some time in August to discuss newsprint and paper supplies and problems common to the two countries.

The committee will also study the possibilities of establishing a newsprint and paper manufacturing industry in Alaska "on a sound economic basis," probably next year.

The committee stated, however, that it felt "the greatest opportunity for increasing newsprint production in the United States can be found in the southern states where plentiful wood supplies are available."

### TREASURY BALANCE

WASHINGTON, July 23 — Treasury balance July 21, \$2,852,135,052.47; internal revenue, \$20,525,665.38; customs receipts, \$25,415,925.99; receipts, \$1,642,288,921; expenditures, \$2,282,898,381.

### STOCKS MOVE UP

NEW YORK July 23 — Stocks moved over to the upside today in slightly more active trading. Gains of fractions were common with a few shares up even more.

## Pickaway Farmers Face Big Wheat Crop Loss As Freak Weather Continues

(Continued from Page One) fall. As a direct result, the county agent said, a lot of wheat has been sprouting, both in standing head and shock.

"The situation is—at the best—very bad," County Agent Best declared. He added that during a survey which covered the 48 hours ended Wednesday noon it was learned that a number of Pickaway county farmers began combining, and this process will be continued in ever-increasing volume unless more rains come.

THE FARMERS, it was ascertained, are taking losses when

they transport wheat to the elevators because of the sprouting, mold, and excess moisture content.

Moisture in wheat delivered to elevators in Pickaway county has been running 14 to 18 per cent. However, in some other Ohio areas the moisture has been reported running up to 25 per cent.

County Agent Best said the worst loss he knew about was taken on an elevator Tuesday. He said the farmer was docked 45 cents per bushel in the price paid because of the surplus moisture. He said test weights are running very low.

Some elevators are rejecting the moisture-laden wheat although most are taking it at slashed prices. This is because most elevators have drying facilities. Cost of the drying processes, however, must be deducted from the prices paid to the farmer.

PICKAWAY county farmers claim it has been more than 15 years since wheat sprouted in the shock. A lot of farmers cannot remember when this occurred. Yet this has been happening in Pickaway county for the last 10 days to two weeks.

Grain dealers claim it will be impossible for farmers to store wheat without spoilage losses. Very few farmers have drying facilities.

## OHIOANS SHIVER AS 'COLD' STAYS

(Continued from Page One) greens tonight, and between 72 and 80 degrees tomorrow afternoon.

High and low temperatures and rainfall amounts in inches, respectively at various points for the 24-hour period ending at 8 A. M., today were:

Akron 60-47, 32; Chesapeake 74-48; Cincinnati 72-49; Cleveland 64-50, 27; Columbus 69-52, .01; Dayton 70-50; East Liverpool 68-47, .01; Findlay 72-48, .03; Hayesville 58-47, 1.07; Parkersburg 68-47; Perry 61-51, .77; Toledo 68-48, .06; Wilmington 68-45; Youngstown 70-47, .01, and Zanesville 65-41.

## Deaths and Funerals

### AVERY V. PURCELL

Avery V. Purcell, 54, of 835 South Pickaway street, died at 5:45 a. m. Wednesday in Berger hospital which he had entered early Tuesday afternoon as a medical patient.

Mr. Purcell was a car inspector for 32 years for the Norfolk and Western railway and he retired in February, 1947 because of ill health. He was a member of the Methodist church and of the Masonic lodge. He was twice married and his first wife, Mrs. Blanche Miller Purcell preceded him in death.

Survivors are his widow, Mrs. Minnie Kind Purcell; a daughter, Mrs. Gail Wilson, 1310 South Pickaway street; a son, Carl Purcell, 138 1/2 West Main street; his mother, Mrs. Ida Beckett, Route 1, Lockbourne; two stepdaughters, Miss Eileen Maynard and Miss Edna Maynard, both at home; a half-brother, Roy Beckett, Route 1, Lockbourne; and two grandsons, Carl William Purcell and Robert Avery Purcell.

The body was removed to the Deffenbaugh funeral home pending completion of funeral arrangements.

### MRS. CLARA DENMAN

Mrs. Clara Denman, 90, Mt. Sterling, widow of Will Denman, died Tuesday in a rest home at Washington C. H.

Mrs. Denman formerly resided on East Main street, Circleville, and was very active in the First United Brethren church.

Surviving are one brother, Edward Hines, and three sisters, Mrs. Ida Julian, Miss Ella Hines and Miss Alma Hines, all of Mt. Sterling. Mrs. Denman had lived with them in Mt. Sterling for several years.

Funeral will be held Thursday at 2 p. m. from the Snyder funeral home in Mt. Sterling. Burial will be in Reber Hill cemetery.

Friends may call at the funeral home.

## DREAM COMES TRUE FOR BOY SIGNAL MAKER

ELYRIA, O., July 23—The dream of a lifetime was coming true today for Tommy Sigsworth, 13-year-old farm boy of near Elyria.

Since a tiny lad, Tommy has been blinking signals with a light from his bedroom window to the New York Central trains that pass by his home.

Pretty soon the engineers of all the trains were answering Tommy's signals with blasts from the locomotives' whistles.

It got so that when trainmen didn't see those tiny flashes of light from Tommy's window, they would start to worry for fear something was wrong. On a number of occasions they would drive to the Sigsworth home to make certain Tommy wasn't ill.

This long friendship of the railroad men with the boy finally came to the attention of New York Central officials.

That is why Tommy was riding in the cab of one of the line's giant locomotives today and pulling on that same whistle that has greeted him so friendly over the past years.

Tommy was going to Toledo and board the engine of the fast five avenue special for a trip into Cleveland. A special lunch and other entertainment were planned for the occasion.

### DEHAVES MOVES

COLUMBUS, O., July 23—Daniel W. Dehaves, 32, Columbus, will leave his post as public relations chief of the bureau of unemployment compensation tomorrow to become personnel director of the state liquor department.

### BRITISH TO ACT

LONDON, July 23—British Foreign Secretary Bevin told the house of commons today that Britain is determined to use her good offices in bringing about solution of the Indonesian war at the earliest possible moment.

## DUTCH ACCUSED OF USING JAPS IN THEIR RANKS

(Continued from Page One) military wherever they are but we must spare women and children."

MEANWHILE, Lieut. Gen. S. H. Spoor's headquarters—in its first tabulation of casualties—said the operations thus far have cost the Dutch only 43 men, including 17 killed and three missing. The others were listed as wounded.

Despite Republican claims to have repulsed a strong force of Dutch troops—spearheaded by 100 tanks or armored cars—in their southward drive, Netherlands headquarters said Salatiga was occupied.

Salatiga, 35 miles from the Republican capital of Jogjakarta, is considered the key to the rail junction of Surakarta which lies to the southwest of the capital.

The communiqué added: "Around Semarang, our troops also occupied Oengaran, Toentang and Ambarawa."

Other towns seized as Dutch seaborne forces advanced from their northern and eastern coast beachheads included Probolinggo, Pasirian, Besuki, Situbondo, Dsember, and Banjoewangi.

NETHERLANDS officials described Republican resistance as "only sporadic," adding that "therefore action is progressing very satisfactorily."

The communiqué added: "The scorched earth policy manifested itself mainly in the robbing of more wealthy inhabitants, especially Chinese, and the burning down of their property."

Advancing west from the Soerabaya naval base, Dutch forces reached Bangil, Pandak.

Republican quarters, meanwhile, accused Dutch aircraft of bombing and strafing the "open towns" of Cheribon, Tjibatoe, Garoet and Tasik-Malaya along with others in central Java.

### CABLE STRIKE ENDS

NEW YORK, July 23—A strike against three trans-oceanic cable and radio companies, which handle one-third of the nation's cable and radio business, ended early today less than three hours after it got underway at 11:01 p. m. EST. A joint announcement by company and union officials said an agreement had been reached providing for an across-the-board increase of 10 cents an hour, retroactive to last June 1.

### CONCERT PLANNED

Members of the newly organized community band of Circleville will present a concert Thursday at 8 p. m. in the Shelter house at Ted Lewis park. If the weather should be cold or rainy, the program will be postponed until a later date.

### STATE HELP ASKED

BENTON HARBOR, Mich., July 23—Gov. Kim Sigler was advised today that "a state of riot and insurrection" exists at the strike-bound plant of the Remington-Rand corporation, and was asked to rush state police to Benton Harbor.

### TRAIN HITS MINE

LONDON July 23—A Reuters dispatch from Tientsin reported today that 27 passengers were killed, 12 seriously injured and many others slightly hurt when a train bound for Tientsin struck a mine on its way to Shanhaikwan.

## Shortage Aids Reds

ASSERTING before a Senate committee that the steel shortage is the "Communists' best secret weapon in America," UAW President Walter Reuther urged that the federal government set up steel production plants unless the industry expands its present facilities. (International)

## GOP LEADERS SPLIT ON RESULT OF DEWEY TRIP

WASHINGTON, July 23—Capitol hill Republicans are divided today as to whether Gov. Thomas E. Dewey, of New York, is gaining or losing ground in the GOP presidential sweepstakes during his "vacation tour" of the West.

A majority think Dewey definitely lost ground, even though he remains a favorite for the Republican nomination next year.

Some ardent Dewey supporters insist he has gained ground by winning new friends in the West through personal contact. They say his trip has made the West "Dewey conscious" while giving the New York governor a new insight into western problems that will aid him once open campaigning starts.

His critics argue that Dewey has made a number of "political blunders" on the trip by "seeing the wrong people." It appears Dewey has failed to win any new delegations and he did stir up a few "hornet nests" in the wake of his trip.

## MIDDLEPOINT MAN SUES BANK HERE FOR DAMAGES

Judgment in the sum of \$402 is asked in a damage suit filed Tuesday in Pickaway county common pleas court by A. W. Baxter, Middlepoint, against the Circleville Savings and Banking company.

Mr. Baxter alleges that he bought a used car March 17, 1947 from the Moats Motor Sales, Circleville, that he made a cash down payment and paid the balance of \$375 by giving his note in that amount to the Circleville Savings and Banking company, and that the note was secured by a chattel mortgage on the car. Mr. Baxter further claims that on April 20, 1947 the financial institution "repossessed and took away" the auto, without notice to him, and that it was sold at private sale for \$398, a price which he contends was "far below the actual market price" of the car. Mr. Baxter alleges that at the time the bank sold the car the vehicle had an "actual market value of \$800" and that he has thereby been damaged to the extent of \$402.

## ITCH

(Scabies) is highly contagious and will continue for life if not stopped. Its sole cause is the itch-mite which is immune to ordinary treatment. EXSORA kills the itch-mite almost instantly. Only three days EXSORA treatment is required. At all GALLAHER DRUG STORES.

## POLAND WILL NOT GET FOOD

(Continued from Page One) country and others are supporting."

THE DEPARTMENT'S action had been anticipated ever since Poland, at Russian insistence, declined to join in the Marshall plan conference for European reconstruction.

Earlier Poland had asked for 200,000 tons of cereal from the United States to make up the deficit in its own crop. Congress had also declined to appropriate any funds to carry out the relief program in Poland and Hungary.

In making its announcement the department also published the text of Harrison's report. This said that the Polish food situation was much better than in many other countries, particularly Greece, Italy, Austria, the American and British zones of Germany and Japan.

## U. S. TO CHECK ON TESTIMONY

(Continued from Page One) as her projects for development of a united Europe.

Recent reports from behind the "iron curtain" were said to have indicated that some of the satellite states, which Washington invited to the conference, were to be eyeing the proceedings with a degree of regret.

It is not believed, however, that they will join in the Marshall plan until and unless Moscow gives them the go-ahead sign.

## MAINLY ABOUT PEOPLE

### ONE MINUTE PULPIT

Though I walk in the midst of trouble Thou wilt revive me; Thou shalt stretch Thine hand against the wrath of mine enemies, and Thy right hand shall save me. —Psalm 88:7.

Condition of Elwood Laveck, South Clinton street, who underwent major surgery Saturday morning in Berger hospital, was reported slightly improved Wednesday.

Condition of John Porter, who has been critically ill in his home at 216 South Pickaway street, was reported improved Wednesday.

John H. Conkel, Route 4, Lucasville, was undergoing medical treatment Wednesday in Berger hospital to which he was admitted Tuesday night.

The price has been reduced for a quick sale of four rooms, bath, garage, whole lot at 412 East Union street, Phone 1103-ad

Ruth Alice Miller, born July 10 in Berger hospital, was removed Tuesday afternoon to the home of her parents, Mr. and Mrs. Jack O. Miller, at 369 East Franklin street.

John Shoewalter, who recently underwent surgery in Berger hospital, was removed Tuesday afternoon to his home, Route 1, Kingston.

The Cootietie Club will sponsor a euchre party in the Memorial Hall, Wednesday evening starting at 8 o'clock. Door prizes. —ad.

### C-W STRIKE DUE

COLUMBUS, O., July 23—A ten-day contract cancellation notice was to be presented today to the Curtiss-Wright corporation in Columbus following authorization by union members of a strike against the airplane manufacturing firm.

### PETRILLO YIELDS

WASHINGTON, July 23—Rep. Kearns (R) Pa., announced today that James C. Petrillo, president of the American federation of Musicians (AFM), has agreed to permit school musicians to broadcast over the radio.

## BRITISH SHIP SUNK BY BLAST IN HAIFA PORT

(Continued from Page One) out that, if confirmed, this would represent the second time since Sunday that Haganah has been credited with anti-British attacks to retaliate for the deportation to France of 4,554 persons seized on the blockade runner "European Exodus of 1947."

This also might indicate fulfillment of underground warnings that all three clandestine groups — Haganah, and the more militant Stern Gang and Irgun Zvai Leumi — were uniting in an all-out campaign against British rule.

ASK FUND TRANSFER Washington township board of trustees filed a petition in Pickaway county common pleas court, Tuesday, asking permission to transfer \$1,500 from the township's general revenue fund to the road and bridge fund, on the allegation that the cash is needed to finance necessary repairs to certain township roads. The petition said the general fund balance as of June 6, 1947 was \$3,133.44. The trustees who signed the petition are Clifton Reichelderfer, Paul Justus and Floy Brobst.

## JAYCEE GOLF TOURNAMENT WILL BE HELD HERE

President Ed Amey Names Committees For Year At Meeting

Decision to stage a golf tournament by Aug. 3 at the Pickaway Country club was reached at a meeting of the Circleville Junior Chamber of Commerce which was held Tuesday night at the Betz restaurant. Participation in the tournament will be restricted to Junior Chamber members.

Ed Amey, president of the Jaycees, presided at the meeting. Appointment of several committees to serve during the ensuing 12 months was announced. Possible ways and means for a proposed re-location of the municipal dump ground, now located on U. S. Route 22 just west of the city, were discussed.

THE NEWLY announced committees include:

Agriculture — Lewis Cook, chairman; Emmitt Ebenhack, Robert Elsea, Dr. F. P. Dunlap and Ronald Jones.

Aviation — Robert Elsea, chairman; Charles Glitt, William Herbert and Lawrence Agin.

Awards — Richard Plum, chairman; Louis Cook, Fred Grant and Paul Rodenfels.

Governmental Affairs — Roger May and Ray Barnhart.

Christmas Activities — Fred Grant, chairman; Ronald Jones, Ray Goetting and John Evans.

Community Improvement and Promotion — Ray Goetting, chairman; Maurice McIntire, Arthur Wagar and Fred Grant.

Extension — Frank Wantz and John Moore.

Personnel and Leadership Training — Ralph Amey, chairman; Richard Morris and Robert Owens.

Public Health and Safety — John Evans, chairman; George Speakman and Philip Gordon.

Publicity and Public Relations — Arthur Wagar and Paul Rodenfels.

Social and Sports — Maurice McIntire and Robert Brehmer.

Youth Welfare — John Moore, chairman; (1) troop sub-committee William Herbert and Robert Miller; (2) gum ball sub-committee, Paul Rodenfels; (3) school safety sub-committee, Frank Wantz; (4) youth canteen sub-committee, John Moore.

On the front cover of the magazine appears a photograph of Mayor Ben H. Gordon, Charles T. Gilmore, power company manager in Circleville, and John B. Poston, president of the Columbus and Southern Ohio Electric company.

Reviewing the ceremonies incident to the turning on of the 37-unit boulevard lighting system the night of June 10, the magazine article, written by John C. Anderson, associate editor, says "no longer do the citizens of Circleville need to grope around in the dark or be afraid of a downtown holdup — the 'round city' was changed in an instant from one of the poorest lighted to one of the best lighted towns in the state."

There are almost 700,000 beds in mental hospitals in the United States.

## REYNOLDS OFFERS TO BET ON HIS PLANE PILOT

NEW YORK, July 23—An offer to bet any amount from 25 to 100 thousand dollars on Capt. Bill Odom in a round-the-world solo race was posted today by Milton Reynolds, millionaire pen manufacturer from Chicago. Reynolds, in a cable from Paris, said anyone taking the bet would have to be ready to leave Aug. 3 when Odom is scheduled to take off on his projected solo flight in the Reynolds Bombshell from Chicago.

Odom piloted the same ship recently when he, Reynolds and another flier scouted around the world in four days, and set a new record for global flying.

There are almost 700,000 beds in mental hospitals in the United States.

## CAR INSPECTION REVEALS MANY MINOR DEFECTS

State Patrol Reports About 20 Percent Of Autos Need Some Repair

Large number of motor vehicles have been inspected by Circleville police and State Highway Patrolmen L. G. Ridenour and Clyde E. Wells in connection with the state-wide annual traffic safety campaign which began July 1 and will continue through July 31.

Police Chief William F. McCrady and the highway patrol officers said Wednesday that many cars examined were found to have defects deemed dangerous and that all such car owners have been notified to have proper repairs and adjustments made at once as a safety measure.

Although accurate figures as to the number of cars checked and the proportion found deficient were not obtainable the police and highway patrolmen commended motorists of Circleville and Pickaway county

for their "splendid cooperation" in the safety drive.

THROUGHOUT Ohio the campaign thus far, it was announced Tuesday, has shown that almost 20 per cent of the vehicles inspected had some primary defect in equipment. Lieut. M. A. Mock, of the highway patrol, Columbus, announced that 108,622 cars have been checked and of that number 19,123 had defects serious enough to warrant issuance of warning tickets to their drivers.

Lieut. Mock listed burned-out bulbs in head and tail lights as the most common defect, followed by faulty brakes and horns. The policy being followed in the campaign is to arrest a driver whose car has some serious defect or if the driver does not possess a driver's license. However, in the majority of cases the driver is warned to have necessary repairs made within three days.

"Every car owner owes it to himself and to the community", Chief McCrady said, "to give full cooperation to the policy in this safety campaign, because every driver needs to accept the responsibility to drive safely in a safe car."

For the first time in its 100-year-old history, Hahaemann Medical college, Philadelphia, recently conferred a physician's degree on a married woman with that of her husband. Royal Thomas and his wife, Mary, were graduated in the same class.

BRIGHTEST GOLF NAMES SET FOR COLUMBUS OPEN

Bobby Locke Installed As Favorite In \$10,000 Links Tournament

COLUMBUS, O., July 23—The brightest names in American golf plus an added starter from the South African veldts — congregated in Columbus today for the next event on their tournament schedule, the \$10,000 Columbus invitational open.

Columbus fans, who saw Byron Nelson stage a blazing finish to win last year's first annual Columbus open, found most of the old families face back again, but they were talking chiefly about a newcomer, South Africaner Bobby Locke.

The square-cut Locke, who accentuates his stocky build by wearing plus-fours, is established as a heavy favorite for the 72-holes of play Friday, Saturday and Sunday.

LOCKE'S EMINENCE is fostered by his feat of winning seven of 11 tournaments in which he has played since he arrived in the U. S. April 3 to "take some lessons" from American pros. Bobby, a lad who knows what to do with a dollar, has stuffed \$18,937.50 into his pockets — aside from his stake in exhibition matches.

The Johannesburg star has won his last two tournaments—George May's rich Tam-O-Shanter and the Canadian open last weekend.

Admitting all that should make him a favorite, there remained plenty to be said for the chances of the stars and stripes delegation. Nelson won't be on hand to defend his title, but Porky Oliver, who was second last year, will be around.

So will such performers as Ben Hogan and Jimmy Demaret, leader and runner-up in the P.G.A.'s total receipts department until Locke passed them last week; P.G.A. champ Jim Ferrier; national open king Lew Worsham; Sam Snead, a perennial favorite, and Frank Stranahan, the brilliant Toledo amateur.

All of those fellows, with the exception of Snead, played the rugged Columbus Country Club course last year.

THE 6,600-YARD country club layout stood up well in the face of the challenge of the experts last year. Nelson shaded par by a dozen strokes in winning, but only 13 others in a field of more than 100 finished ahead of standard figures.

One thing that wasn't touched was the course record of 65. Home pro Charley Lorms set that years ago. The Columbus tournament gets a preview tomorrow with a pro-amateur in the afternoon and a shot-making demonstration in the late afternoon featuring several of the touring pros. Friday and Saturday the approximately 105 entrants will play 18-hole rounds, following with a 36-hole marathon on Sunday.

RED BIRDS WIN 7 TO 4; TOLEDO DROPS TO CELLAR

Columbus Red Birds scored a 7-4 victory over Minneapolis Tuesday night while the other Ohio team in the American Association was dropping into a tie for the cellar spot.

Toledo bowed to last place St. Paul 9-3.

Louisville failed to gain on league leading Kansas City, which split a doubleheader, 4-0 and 0-3 with Indianapolis. The Colonels lost to Milwaukee, 5-3.

TOMMY WATSON HEADED BACK TO OHIO STATE 11

COLUMBUS, O., July 23—Wes Fesler, Ohio State's new football coach, looked forward today to reinforcements for his 1947 edition of the Buckeye eleven with the news that Tommy Watson, regular right end in 1945, was on his way back from the Army.

Freshman Coach Dick Fisher received a letter from his ex-teamsman saying that he expected to be released from the Army this week. He said he was heading back for a talk with Fesler about getting ready for fall practice.

Softball Tournament To Start Here Tonight

Softball returns to Circleville Wednesday night. President Ed Amey of the Night Softball league announced that the first game of the double elimination tournament would be played at 8 o'clock tonight on the Ted Lewis park diamond if there is no rain by game time.

Rain and floods washed out the second round and after many delays it was decided to hold the double elimination tournament instead of the second round of play. Three games had been played before the floods came. These have been cancelled.

IN SETTING up the tournament the four top teams during the first round of play were seeded. In No. 1 spot is Richards Implement; No. 2 Drake's Produce; No. 3 Blue Ribbon and No. 4 Mumaw's Market.

One game will be played each night, Monday through Friday every week until the tournament is completed. There will be two brackets, winners and losers. As teams lose they drop in to the losers bracket and stay there until they lose again when they are out of the tournament.

FRED RAIKZ IS NEW WILMINGTON COLLEGE COACH

WILMINGTON, July 23 — A Wilmington College graduate and a former Wilmington man will return to his home town from Oklahoma City, Oklahoma, to become head football coach at Wilmington College.

Fred Raikz, present head football coach at Classen high school, in Oklahoma City has been employed by his alma mater to direct Quaker gridiron elevens and to serve as assistant director of athletics.

Raikz, who was graduated from Wilmington in 1936, has produced an enviable record in his 11 years of high school coaching. Of the eight football teams which he coached, four won championships, two were runners-up and another gained third place. He also directed basketball teams for 10 years. His cage squads copped five county championships and four of them won district tournaments. One took a regional crown and went into the state finals. The versatile coach also piloted three baseball teams. Two of these walked off with high school league championships and the third took second place honors.

Guess Again

YOU'RE WRONG—That third hand doesn't belong to E. D. Giffen but to the beet he raised on Herlington, Tex., farm. (International)

they are out of the tournament. Winner of the top bracket plays the winner of the losing bracket for the championship. In the event of rain any night the tournament backs up until the field is in shape. For instance, if tonight's game is called off it will be played Thursday night, if the field is ready, or Friday, or Monday, depending on the weather. The tournament cannot advance until the games in order have been played.

Time out from the tournament will be taken next Wednesday night for a game between Farm Bureau and General Motors girls teams from Columbus.

SCHEDULED to play the first game tonight are Tarlton and Esmeralda. Other games slated are:

Thursday night, VFW and Williamsport; Friday, Drake's and Isaly's; Monday, Container and Blue Ribbon; Tuesday, Richards vs. winner of Tarlton-Esmeralda; Thursday, July 31, Mumaw's vs. winner of VFW-Williamsport.

MIZE SIDELINED BY 'BEAN BALL' FROM BRECHEEN

Dodgers Thump Lively Reds; Athletics Use Three Hits To Beat Tribe

NEW YORK, July 23 The misdirected white lightning of crafty Harry (The Cat) Brecheen temporarily short-circuited the New York Giants' biggest siege-gun last night, and today the home-run hammering Jints are without the services of big John Mize, major league home-run leader.

Last night, in the fourth inning of the Giant-Cardinal fray, Mize failed to follow a high fast ball, which struck him on the right side of the head.

Percursory diagnosis and X-rays failed to reveal fracture or skin break, but Dr. Robert F. Hyland said Mize had suffered a slight concussion.

It may or may not be significant that the Georgia slugger had crashed a two-run homer off Brecheen in the first inning for his 28th round tripper of the year. The rugged strategy of "backing" a man away from the plate to prevent him from taking a toe-hold is not uncommon in baseball chicanery.

The injury to Mize apparently upset the second-place New Yorkers. Indeed, Monte Kennedy, the Giant starter, clipped Brecheen in the knee when the little lefty came to bat in the next inning. But otherwise, Kennedy accomplished little for the Giant cause.

Stan Musial and White Kuroski belted the New York southpaw for third inning home-runs and the Cards picked up from there to hammer out a 10 to 5, twelve-hit assault against three New York hurlers.

THE BROOKLYN Dodgers avenged last week's one-hit setback by Cincinnati Red rookie, Ev Lively, by pounding him and two other Red pitchers for 14 hits and a 12 to 1 victory. Dixie Walker hit his sixth homerun to help Ralph Branca chalk up his

16th 1947 success. Boston's pennant-hopeful Braves failed to gain any ground in a twin-bill with the Chicago Cubs. The two clubs split a pair of 2-to-0 shutouts. Red Barrett, the smiling Irishman twirled a four-hitter for the Braves in the first game, and the veteran Claude Passeau scattered eight Brave hits to score his first victory of the year.

The game between the Pirates and the Phillies was postponed because of rain.

IN THE AMERICAN League, ol' Bobo Newsom, the round traveler-pitcher hurled a neat three-hit, 6-to-0 whitewash job against the St. Louis Browns to stretch the Yank first-place margin to 10-1/2 games over the Detroit Tigers.

The game also marked the debut of Negro ball players at the Yankee stadium. Willard Brown and Henry Thompson, right fielder and second baseman, respectively, started and finished for the Browns. Thompson got one of the three hits off Newsom.

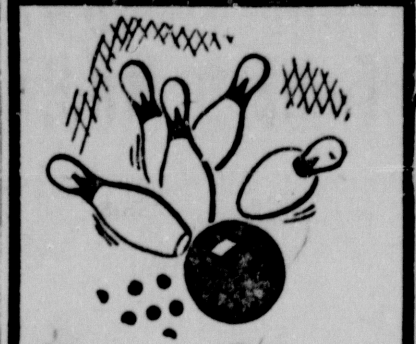

Early Wynn, the Washington southpaw, limited the Detroit Tigers to two hits while his mates pounded three Bengal moundsmen for 11 hits and a 6 to 1 victory. Tiger Manager Steve O'Neill played the game under protest following a dispute with Umpire McGowan in the sixth inning.

THE BOSTON Red Sox con-

tinued their mastery over the Chicago White Sox by nosing out the Pale Hose, 3 to 2, in ten innings. Birdie Tebbett's double with one out in the tenth scored Dom DiMaggio, who had singled, with the winning run. Joe Dobson rang up his 11th victory although he gave up 11 hits. It was the 11th victory for the Red Sox in 13 meetings between the two clubs.

The Philadelphia Athletics got only three hits in their game with the Cleveland Indians, but they got them at the right spots to defeat the Indians, 5 to 3. Sam Chapman's

two-run homer in the first inning was one of the three hits off Allan Gettel, the losing pitcher.

## AIR FORCE DAY PROCLAIMED FOR FRIDAY, AUG. 1

Circleville Citizens Urged To Pay Tribute On 40th Anniversary

Mayor Ben H. Gordon Wednesday issued a proclamation setting Friday, August 1, as Air Force Day in Circleville.

The proclamation states: WHEREAS, the President of the United States has proclaimed August 1 as Air Force Day to honor the millions of men, living and dead, whose contributions to the growth of American air power make the Army Air Forces this country's most far-reaching weapon of defense; and

WHEREAS the Army Air Forces is receiving an increasingly important role in maintaining, through constant research and development of aircraft and adequate trained personnel, the defense of this nation; in supporting the United Nations with adequate and effective air contingents; in avoiding the cost of war by insuring peace; and in providing, in the event of war, a nucleus of highly trained personnel, the basis for all-out expansion of war; and

WHEREAS a grateful nation recognizes the importance of air power in preserving our liberties and appreciates the potentialities of air power in pioneering an even more glorious future for our country;

Now, therefore, I, mayor of the city of Circleville, in order that we may honor the men and women of the Army Air Forces who have given their lives in the defense of this country, and recognize the service of those who in the armed forces or in the civilian centers of science, research and production have contributed to the building of our air might, do hereby proclaim Friday, August 1, 1947, as Air Force Day in Circleville.

I urge all citizens to join in the observance of this, the 40th birthday of the Army Air Forces, with ceremonies appropriately expressing their gratitude for its glorious past and their hopes for its future continued growth and development.

In witness thereof, I hereunto set my hand and cause the seal of the city of Circleville to be affixed.

Done this 23 day of July, in the year of our Lord, one thousand nine hundred forty-seven, and of the independence of the United States of America the one hundred seventy-second.

Ben H. Gordon, Mayor

**DRIVER FINED FOR LEAVING DOG STRUCK BY AUTO**

CHICAGO, July 23 — Chicago Judge Leon Edelman regards it an equal crime for a motorist to leave an injured animal or a human being lying in the street.

He impressed that view on Roy Thompson, 23, by fining him \$100 and costs.

The judge was told Thompson's car struck two dogs. One was not badly hurt but the other suffered a broken leg.

Thompson's car was halted shortly after the accident and he was booked by police. He explained that he was afraid to stop because owners of one of the dogs were "yelling at me."

The first machine invented to undercut coal in mines to take the place of laborious hand picking, was deliberately wrecked by the miners who thought it would deprive them of their jobs.

**SENSATIONAL NEW CURLER!**

AT LAST! AN EASIER HOME PERMANENT!

QUICKER! Charm-Kurl's sensational, new Lock-Tite curler is far easier, quicker, better than those hard-to-use curlers you've known.

## VAN CAMP LOW BIDDER ON OHIO HIGHWAY JOBS

George W. Van Camp, Circleville contractor, was the low bidder, the state highway department announced Tuesday at Columbus, on proposals for six highway improvement jobs in Pickaway, Fayette and Madison counties in connection with bituminous treatment of roads.

The six projects are on State Route 665 in Madison county, State Route 762 in Scioto and Harrison townships in Pickaway county, State Route 70 and State Route 62 in Fayette county.

The estimated cost was \$21,974.34, and the Van Camp bid was \$19,624.

The idea of celebrating New Year's Day on Jan. 1 was introduced by Julius Caesar when he adopted the Julian calendar and postponed the Roman holiday of New Year's from Dec. 21 to Jan. 1, according to the Encyclopedia Britannica.

## LONDON LIQUOR STORE TO CLOSE DURING FAIR

LONDON, O., July 23 — The state liquor store at London will be closed during the Madison county fair, August 17 to 21.

Store Manager William Hewitt announced today that those were his instructions from the state liquor control department. The old law banning sales of liquor within two miles of an agriculture fair was repealed by the legislature but the repealer does not take effect until Sept. 8.

## Farm Mortgage Debt Up First Time In 17 Years

Farm mortgage debt turned up in 1946 for the first time in 17 years, rising some \$170 millions to an estimated total of \$5 1/4 billions, the Institute of Life Insurance reported today based on U. S. department of agriculture estimates.

Except for 1945, the Institute said, the 1946 farm mortgage debt was the lowest in 32 years and represented a reduction of about 20 percent from the total outstanding at the beginning of the war and more than 50 percent from the \$10.8 billions farm mortgage debt peak set in 1923.

As a result, debt and interest charges per acre also were down sharply from 1923.

"However, there are other elements in the current farm real estate situation that explain the growing concern both in business and government circles over the outlook," the Institute stated.

"One is the very marked increase in the average size of new farm mortgage loans re-

corded in recent years. In 1940, the average size of new farm mortgage loans was \$2,290. Last year this average had increased to just under \$4,000, a rise of nearly 75 percent over 1940. Furthermore, the number of mort-

gages recorded last year was 26 percent greater than the year before and 15 percent above the 1940 total.

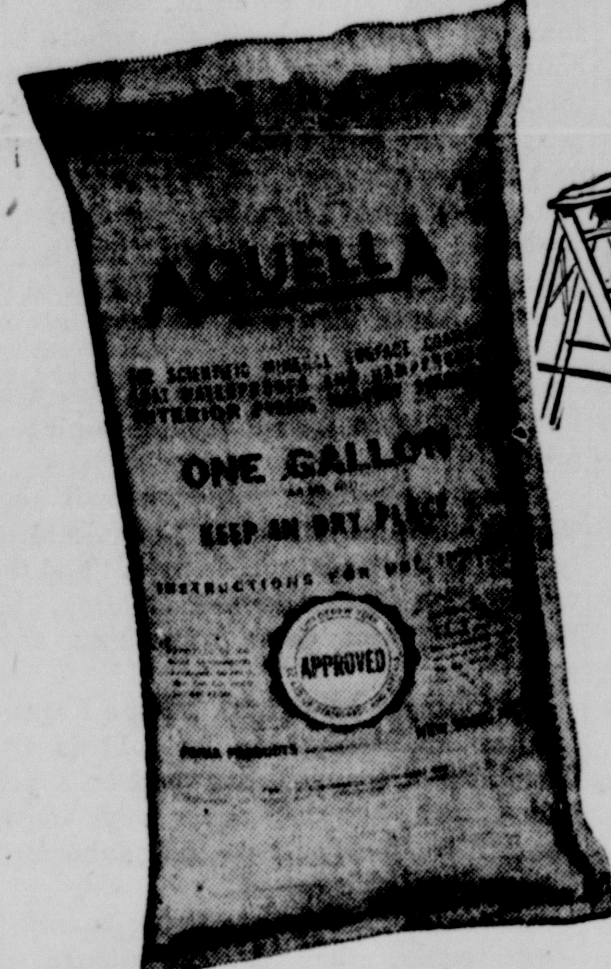

"Another factor is the great rise that has occurred in farm real estate prices. On March 1 this year, the average price per acre was 92 percent above the 1935-39 average and only 6 percent under the all-time peak in 1920, at the height of the farm land inflation of the World War I period. Furthermore, sales of

farms have been increasing steadily and turnover last year reached a new high.

"In addition, there is widespread uncertainty over the stability and duration of current high prices for farm products which have been the basic factor in the boom in farm real estate."

Myall wood is a hard, violet-scented wood of Australia, much used for making tobacco pipes.

## NO MORE Leaky Cellars!

**AQUELLA**

MINERAL SURFACE COATING  
STOPS LEAKAGE, SEEPAGE,  
DAMPNESS

IT'S NEW! IT'S DIFFERENT!  
IT WORKS!

Here's that amazing, waterproofer you've been waiting for! Aquella expands when applied to porous masonry—fills every microscopic pore to form a micropore seal that continues to harden with age. Imparts a glistening white, eggshell-like finish—light reflecting and beautiful "as is," or it may be painted over with any color. Will not powder, rub off, blister, peel or flake. Get Aquella for interiors; Aquella No. 2 for exteriors.

**AQUELLIZE FOR WATERTIGHTNESS**

Inside or outside, above or below ground. For all such porous masonry surfaces as concrete, masonry blocks, common brick, rough plaster, stucco. Directions in bag.

**\$3.95** per bag  
Makes 1 gal. First coat covers 60 to 120 sq. ft., second coat, 175 to 250 sq. ft.

Tested and Approved by Leading Government Agencies and Industries

## FORD OFFERS THE LOWEST PRICED CARS IN ITS FIELD

These days many articles are being sold at prices that represent the full amount the SELLER thinks the public will pay.

Automobiles are not in this class. New cars are being sold every day by authorized Ford Dealers at prices well below what people are willing to pay.

That is why we Ford Dealers publish this advertisement. We want you to know the exact prices we charge for the new Ford cars we sell, and that no bonus payments or premiums of any kind have been or will be accepted.

Of course, the demand for new Fords is still far ahead of the supply. But we are delivering cars as fast as we can on a fair and equitable basis to those who have their orders on our books now.

We sincerely appreciate your patience. We want to deliver your new Ford just as soon as possible, at the REGULAR PUBLISHED PRICE. In the meantime, let us keep your present car rolling with Friendly Ford Service.

And remember that it has always been Ford policy to offer the greatest value at the lowest possible cost.

### NO SCHOOL STRIKES

THE PROBLEM of school teachers' strikes, which caused a flurry of confusion and anxiety throughout the nation a few months ago, seems to have settled down to a rational basis not very different from the original attitude of the profession. It has been recognized more clearly that, while all professions, whether manual or intellectual, are honorable and worthy of proper respect and compensation, there are qualities and principles in the so-called "higher professions" which call for special respect and appreciation. Viewed in this light, teaching and the ministry are not far apart.

It is reassuring to find that educators in general appreciate the distinctions and recognize that where adequate money compensation has been small, the lack has been somewhat counterbalanced in the past on a scale of higher values than those of the marketplace.

Proper efforts for decent compensation should go on without ceasing, for the laborer is worthy of his hire and there is no excuse for a teacher or teacher's family to suffer poverty. But in addition to the money return, the teacher should have high admiration and respect in line with the high service.

The other side of the situation is that there should be no strikes. A strike of teachers lowers the dignity of the profession, and is a plain indication that the community is not doing its just duty. If the community will pay its teachers well, look up to them as to the noble people they are, the strikes will be likely soon to disappear.

### VOTES AND PROSPERITY

Voting is popularly supposed to follow the dictates of the pocketbook. Prosperity means support of the administration lucky enough to be in power. Hard times bring about anti-administration votes. Thus the panics of 1873 and 1893 were disastrous to the Republican administration in the first case and to the Democratic in the second. The depression of 1929 proved fatal to the long established Republican tenure of office.

Nowadays it may be different. The country was prosperous in 1946, and yet turned out the Democrats. Figures published by Business Week emphasize this new departure. Farm income doubled or tripled in Wisconsin, Indiana, Michigan, Ohio and Illinois from 1939 to 1946 yet at every election the farmers have voted Republican, more emphatically as their income rose.

If the Truman administration reduced the farmers' income, would they vote Democratic in 1948?

Even with all the yelling and insistence on killing the umpire, baseball is one of the two or three most wholesome influences in American life.

## ASSIGNMENT: AMERICA

By Kenneth L. Dixon  
Distributed by International News Service

WASHINGTON, July 23—"So you're a newspaperman," said the cab-driver in what sounded like a sneer as he headed toward the house wing of the capitol building. "Well, why don't you write something about the fact that these jerks are being hired by the year?"

"What jerks?" I asked, not wanting to jump at conclusions.

"Aw, you know who I mean," he snapped. "These jerks in the senate and house. Us taxpayers hire 'em at fifteen thousand bucks a year, plus a lot of expense money and what-not, and we never do get a year's work out of 'em. And this year, they haven't done half the stuff they promised us they would, but now they're gonna quit and go home—just because it's getting kinda hot and sweaty around town."

He swung up through the hallowed drive and halted, then turned around to glare at me.

"They don't seem to give a hoot about the work they're not doing," he said bitterly, wiping the sweat off his face. "and they work in an air-conditioned building, too! Why don't you write something about that?"

Well, maybe he's right. Maybe I should. After all, everything he said is true. Members of congress are paid on a year-round basis, but they never work the full year. Also, they now do their laboring in air-conditioned comfort.

Furthermore, they are fixing to adjourn—not recess, mind you, but adjourn—this weekend. Which means they get the rest of the year off, at full pay.

What single legitimate reason have they offered for quitting? Well, if you've heard of any you're better off than both the cab-driver and this correspondent. If they were just taking a brief recess or vacation, it would be different. But—at this writing—they're not. They're adjourning until sometime next year.

And what work are they leaving behind them?

Well, there's the veterans' emergency housing legislation, for instance. In spite of promising us taxpayers (their bosses) that they'd do something about that, they haven't. And people on both sides of the fence claim that action is needed on that score, if we're to relieve the housing crisis. But congress is leaving that chore undone. Then there's the business of lowering taxes. The taxi-driver had some opinions on that.

"Everybody knows," he said, "that if they really wanted to do something about taxes, they could get together with the President and work out some bill that he'd sign. But they're just playing politics with it. They decided either to pass a great big tax-cut bill that they could take a lot of credit for, or else fix the record so they could blame it all on the other side next year, if nothing is done. Well, they're quitting with nothing done about it—in spite of their promises."

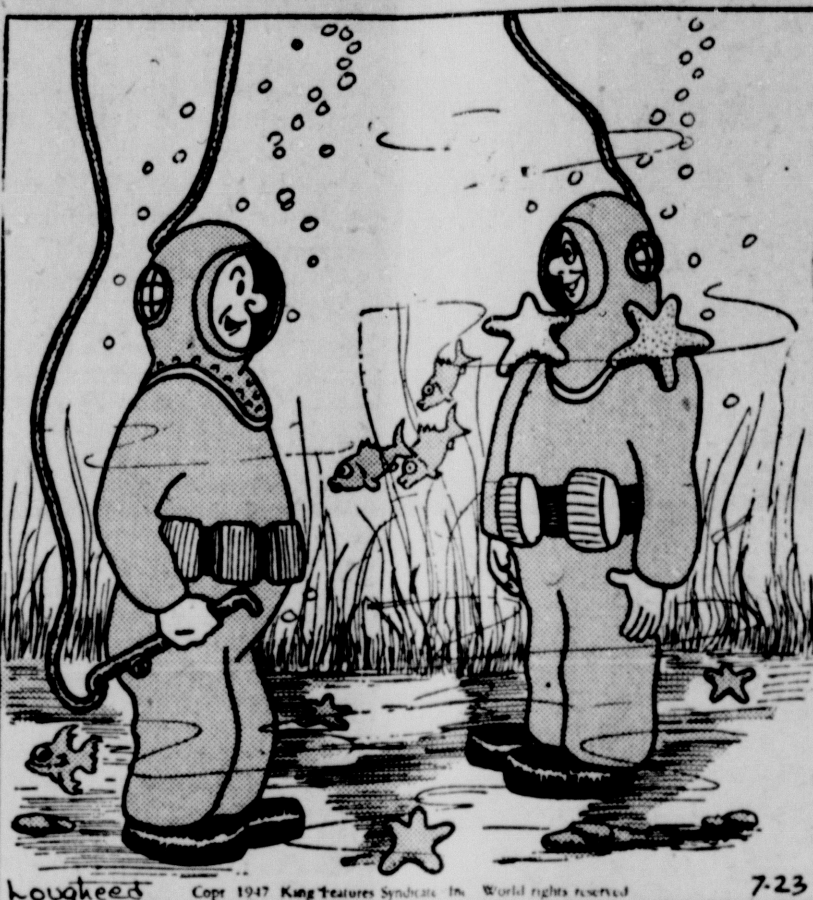

And, ladies and gentlemen, the guy is absolutely right.

Concerning the congressional work still left undone, there were many other points he could have mentioned.

Militarily speaking, he might have felt it necessary that there be some decision on such measures as Army-Navy unification and the proposed universal military training—if for no other reason than that it would give our fighting folks some idea, in these crucial times, about how to handle their future preparedness program.

(Continued on Page Eight)

## LAFF-A-DAY

"Look, Joe—brigadier general!"

## BARCLAY ON BRIDGE

By Shepard Barclay

"The Authority on Authorities"

### A GOOD WAY TO TEACH

IF YOU are trying to teach a relative beginner some of the principles of sound play, one of the best methods is to select a hand which illustrates a particular point and then show him what happens when it is played two extremely different ways. That impresses the difference in results on his mind in the most convincing way. One feature which can be made extremely clear by that procedure is how cross-ruffing can increase the number of tricks taken by a particular trump holding.

(Dealer: South. Both sides vulnerable.)

South	West	North	East
1 ♠	2 ♠	3 ♠	Pass
4 ♠	Pass	2 ♠	Pass

One observer of the lesson given on this deal said he would have jumped straight to 4-Spades on North's first turn. Another said he would have rebid 3-Spades instead of 3-Hearts in the South. A third said he would have passed in the North, that South then should have doubled. West would have followed with 3-Clubs and North would have doubled. But the teacher said the hand was not chosen for bidding, but to illustrate the point of play if West led a heart. And he surely made it clear.

### Looking Back In Pickaway County

#### FIVE YEARS AGO

Mrs. Elgar Barrere, West Union street, has returned after a visit with Miss Mary Barrere and other relatives in Hillsboro.

A radio program featured music composed by Ralph Barnhart, Long Island, New York, who is a son of Mr. and Mrs. C. R. Barnhart, Montclair avenue.

The Misses Vera Zaenglein and Doris Schreiner returned to their respective homes on East Mount street, after completing

"Suppose," he said, "South won with the heart K, ran four spade tricks and the heart A. That would make six tricks—two with trump hearts and four with trumps. South would then lose the rest of the tricks."

"But," he butted, "if South, after winning that trick, uses his trump one at a time, he can take eight tricks with them. He could get the first two tricks with hearts, trump a heart in dummy, then lead a club to his K. West would win that. Suppose he returned a diamond to the A, and East then led another club. South could cross-cross then, trumping four clubs in the South and four red cards in the North to take eight tricks that way. These, plus the two high hearts, would make ten."

"Now notice," he climaxed, "that if the defenders led a trump at any time, making two trumps play on one trick, only seven tricks could be taken with the eight trumps. And if the defenders led trumps twice, they would cut down to six the number takable by trumps."

(Dealer: South. East-West vulnerable.)

Why should East not double South's 6-Hearts contract after South also had bid clubs and North spades?

## The HOLLOW

By Agatha Christie

CHARLES WENDEL FIFTEEN EDWARD SAID earnestly: "Henrietta, dearest, do believe this—that I do sympathize with you—in your grief, your loss."

"Is it grief?"

The question startled him. She seemed to be asking it, not of him, but of herself.

She said in a low voice: "So quick—it can happen so quickly. . . . One moment living, breathing, and the next dead—gone—emptiness. Oh! the emptiness! And here we are, all of us, eating caramel custard and calling ourselves alive—and John, who was more alive than any of us, is dead. I say the word, you know, over and over again to myself. Dead—dead—dead—dead—DEAD! . . . And soon it hasn't got any meaning—not any meaning at all. . . . It's just a funny little word like the breaking off of a rotten branch. Dead—dead—dead—dead—like a to-morrow, isn't it, beating in the jungle? Dead—dead—dead—dead—dead—"

"Henrietta, stop! For God's sake, stop!"

She looked at him curiously. "Didn't you know I'd feel like this? What did you think? That I'd sit gently crying into a nice little pocket handkerchief while you held my hand. That it would all be a great shock but that presently I'd begin to get over it. And that you'd comfort me very nicely. You are nice, Edward. You're very nice, but you're so—so inadequate."

He drew back. His face stiffened. He said in a dry voice: "Yes, I've always known that." She went on fiercely. "What do you think it's been like all the evening, sitting around, with John dead and nobody caring but me and Gerda! With you glad, and David embarrassed and Midge distressed and Lucy delicately enjoying the News of the World come from print into real life! Can't you see how like a fantastic nightmare it all is?"

Edward said nothing. He stepped back a pace, into shadow, and looked at him. Henrietta said: "Tonight—nothing seems real to me, nobody is real—but John!"

Edward said quietly, "I know. . . . I am not very real. . . ."

"What a brute I am, Edward! But I can't help it. I can't help resenting that John who was so alive is dead."

"And that I who am half dead am alive. . . ."

"I didn't mean that, Edward. . . . I think you did, Henrietta. . . . I think, perhaps, you are right." But she was saying thoughtfully, harking back to an earlier thought: "But it is not grief. Perhaps I cannot feel grief. . . . Perhaps I never shall. . . . And yet—I would like to grieve for John."

Her words seemed to him fantastic. Yet he was even more startled when she added, suddenly, in an almost businesslike voice: "I must go to the swimming pool."

She glided away through the trees.

Walking stiffly, Edward went through the open window.

Midge looked up as Edward came through the window with un-

seeing eyes. His face was gray and pinched. It looked bloodless.

He did not hear the little gasp that Midge stifled immediately. Almost mechanically he walked to a chair and sat down. Aware of something expected of him, he said: "It's cold."

"Are you very cold, Edward? Shall we—shall I—light a fire?"

Midge took a box of matches from the mantelpiece. She knelt down and set a match to the fire. She looked cautiously sideways at Edward. He was quite oblivious, she thought, of everything.

She said, "A fire is nice. It warms one. . . ."

How cold he looks, she thought. But it can't be as cold as that outside. It's Henrietta! What has she said to him?

"Bring your chair nearer, Edward. Come close to the fire."

"What?"

"Your chair. To the fire."

She was talking to him now, loudly and slowly, as though to a deaf person.

And suddenly, so suddenly that her heart turned over with relief, Edward, the real Edward, was there again. Smiling at her gently. "Have you been talking to me, Midge? I'm sorry. I'm afraid I am—thinking of something."

"Oh, it was nothing. Just the fire."

The sticks were crackling and some fir cones were burning with a bright clear flame. Edward looked at them. He said: "It's a nice fire."

He stretched out his long thin hands to the blaze, aware of relief from tension.

Midge said, "We always had fir cones at Ainswick."

"I still do. A basket of them is brought in every day and put by the grate."

Edward at Ainswick. . . . Midge half closed her eyes, picturing it. He would sit, she thought, in the library, on the west side of the house. There was a magnolia that almost covered one window and which filled the room with a golden green light in the afternoons. Through the other window you looked out on the lawn and a tall Wellingtonia stood up like a sentinel. And to the right was the big copper beech.

Oh, Ainswick—Ainswick.

She could smell the soft air that drifted in from the magnolia which would still, in September, have some great, white, sweet-smelling, waxy flowers on it. . . . And the pine cones on the fire. . . . And a faintly musty smell from the kind of book that Edward was sure to be reading. . . . He would be sitting in the saddle-back chair, and occasionally, perhaps, his eyes would go from the book to the fire, and he would think, just a minute, of Henrietta.

Midge stirred and asked: "Where is Henrietta?"

"She went to the swimming pool."

Midge stared. "Why?"

Her voice, abrupt and deep, roused Edward a little.

"My dear Midge, surely you know—oh, well—guessed. She knew Christow pretty well. . . ."

"Oh, of course, one knew that! But I don't see why she should go."

That's not at all like Henrietta, She's never melodramatic. "Do any of us know what anyone else is like? Henrietta, for instance."

Midge frowned. She said: "After all, Edward, you and I know Henrietta all our lives."

"She has changed."

"Not really. I don't think one changes."

"Henrietta has changed."

Midge looked at him curiously. "More than we have, you and I?"

"Oh, I have stood still, I know that well enough. And you—"

His eyes, suddenly focussing, looked at her where she knelt by the fender. It was as though he was looking at her from a long way off, taking in the square chin, the dark eyes, the resolute mouth. He said: "I wish I saw you more often, Midge, my dear."

She smiled up at him. She said: "I know. It isn't easy, these days, to keep touch."

There was a sound outside and Edward got up.

"Lucy was right," he said. "It has been a tiring day—one's first introduction to murder! I shall go to bed. Good night."

He had left the room when Henrietta came through the window. Midge turned on her.

"What have you done to Edward?"

"Edward?" Henrietta was vague. Her forehead was puckered. She seemed to be thinking of something far away.

"Yes, Edward. He came in looking dreadful—so cold and gray."

"If you care about Edward so much, Midge, why don't you do something about him?"

"Do something? What do you mean?"

"I don't know. Stand on a chair and shout! Draw attention to yourself. Don't you know that's the only hope with a man like Edward?"

"Edward will never care about anyone but you, Henrietta. He never has."

"Then it's very uninteresting of him." She threw a quick glance at Midge's white face. "I've hurt you. I'm sorry. But I hate Edward tonight."

"Hate Edward? You can't. . . ."

"Oh, yes, I can! You don't know."

"What?"

Henrietta said slowly: "He reminds me of such a lot of things I would like to forget."

"What things?"

"Well, Ainswick, for instance."

"Ainswick? You want to forget Ainswick?"

Midge's tone was incredulous.

"Yes, yes, yes! I was happy there. I can't stand just now being reminded of happiness. . . . Don't you understand? A time when one didn't know what was coming. When one said confidently, everything is going to be lovely! Some people are wise—they never expect to be happy. I did."

She said abruptly: "I shall never go back to Ainswick."

Midge said slowly: "I wonder."

## Inside WASHINGTON

Third Tax Cut Bill Seen Certain in Next Session

Congressmen Would End Civilian Atom Control

Special to Central Press

WASHINGTON—Congress is virtually certain to be presented with another tax reduction bill at the next session beginning Jan. 3.

The House ways and means committee is now holding hearings preparatory to drawing up an overall tax adjustment measure. The plan is to offer this bill in the House next February.

This bill has been termed a tax adjustment measure. But Chairman Harold Knutson (R), Minn., of the ways and means committee, has already promised that it will contain one important tax reduction feature. This is an income-splitting provision for married couples. It will probably also contain others.

Couples in the 10 states with community property laws are now allowed to split their incomes to cut down taxes. The plan is to extend a similar privilege to couples in the 38 non-community property states. This cut will be important to many couples in the middle and higher income brackets.

Strong pressure is on to increase personal exemptions in order to give a substantial tax cut to low-income groups. Demands are also being made for reduction in wartime excise levies and corporation, estate and gift taxes.

● **ATOM BATTLE**—The prolonged struggle which gave a civilian commission rather than the armed forces control of atomic energy may break out anew. Four of the seven bills now before the Senate-Atomic committee would return control of the A-bomb secrets

to the Army. Even though the theft of the atomic secrets at Los Alamos took place under Army control, some House and Senate members still say that the safety of the country demands that the civilian commission be abolished.

● **MONEY FOR MEXICO**—Congressmen back from inspecting the joint U. S.-Mexican battle against the dread hoof-and-mouth disease in cattle south of the border are agreed on one thing—more money is needed to complete the job.

Responsible sources estimate that roughly 2.5 million cattle must be slaughtered and buried before the extremely contagious disease is eliminated.

Prime reason for keen U. S. concern about the Mexican cattle situation is fear that the disease will spread northward into the great southwestern cattle states.

Untold sums of money—maybe in the billions—would be needed to combat the scourge once it got a foothold in the United States.

● **TORRID SPUDS**—Hot potatoes are being passed back and forth between Capitol Hill and the White House at an almost unprecedented pace.

President Truman vetoed the GOP tax slash bill with a sizzling message and was upheld; he vetoed the labor bill with even more vehement denunciation and was overridden. The president signed the rent control law but did so with a blast of condemnation, saying it was the "lesser of two evils."

Politically, all this proved somewhat embarrassing to the GOP-dominated Congress. So Congress is hitting back. Mr. Truman is expected to be confronted with a bill to permit former enlisted men to cash their terminal leave bonds.

The chief executive's vigorous opposition to cash payments as inflationary was sufficient last year to force an agreement to pay by bonds. However, what with rising costs of living and other considerations, the millions of ex-GIs entitled to terminal pay—or a majority of them—would like the cash now.

So if the president vetoes that bill it will be an action unpopular with a great many vets and their families.

● **TWENTY-FIVE YEARS AGO**—"All profits from the Kinderhook picnic will go to Mt. Pleasant church, a worthy cause."

Circleville Tire and Repair company conducted a pun-cture proof tire demonstration on the corner of Court and Main streets.

Miss Anna Shea spent the day with her sister, Miss Margaret Shea in Columbus.

The soil of Ethiopia (Abyssinia) is very fertile, yielding two and sometimes three crops a year.

The monetary unit of Romania is the lei.

## DIET AND HEALTH

### A Serious Condition Which May Affect New-Born Infants

By HERMAN N. BUNDESEN, M.D.

PERSISTENT attacks of vomiting in the new-born baby means that the doctor should be consulted at once because they may indicate the condition known as congenital pyloric stenosis.

Pyloric stenosis occurs because of a thickening of the circular muscle, known as the pyloric valve, located between the stomach and the first part of the intestine. Ordinarily, this valve closes to keep food in the stomach until it is ready to pass into the small intestine, but in pyloric stenosis, the valve remains closed, blocking the opening so that food does not get through.

#### Present at Birth

This disorder may be present at birth, particularly in boy babies, though usually it comes on at six weeks of age, causing vomiting, followed by loss in weight and, eventually, starvation.

Apparently, pyloric stenosis varies greatly in its severity, that is, the closure may be more or less complete. Thus the type of treatment varies with the severity of the condition.

When pyloric stenosis is present in the new-born baby, it is important to recognize it early so that it can be treated at once before the child's condition becomes worse through lack of nourishment.

#### Treated Medically

Mild cases, it appears, may be treated medically. The medical treatment, according to Dr. Wilfred J. Pearson of England, consists in washing out the stomach with a

warm salt solution, regulating the feedings, and making sure that loss of fluids from the body, or dehydration is corrected. In addition, atropine, a preparation which relaxes muscle spasm, may be employed, together with phenobarbital which is a sedative or quieting drug but is used in these conditions because it relaxes the stomach and intestine.

Of course, these preparations must be carefully administered under the direction of a physician, so that the correct dose is used. As a general rule, the atropine is given a half hour before each feeding. If there is any evidence of loss of fluids from the body, salt solution may be given either by injection into a vein or under the skin.

As a general rule, breast milk is the best food for these babies. In some cases, however, it may be necessary to give thickened cereal feedings. The amount of food given at each feeding should be small, and the feedings given at more frequent intervals than usual, that is, every three hours.

In severe cases of pyloric stenosis, operation is required. If the operation is done early, and the baby is put in the best possible condition before operation, the operation is usually quite successful. Any dehydration present must be corrected before the operation is performed. Blood transfusion, that is the injection of whole blood into a vein, is often helpful.

After the operation, small quantities of food are given at each feeding, and then the amount gradually increased.

# German Science Now Serving American Industry

## Nazi War Secrets May Help Raise U. S. Living Standard

By JOHN L. KENT

Central Press Correspondent

**WASHINGTON**—German industrial secrets which helped keep Germany at war almost six years are now being made available to Americans. Information contained in government reports on German machines and processes are filling gaps in our own research and may help raise our standard of living.

The reports, some prepared by Allied military intelligence men and some by American civilian investigators, are being released by the Office of Technical Services of the Department of Commerce.

According to John C. Green, director of the OTS, our investigators are still combing German plants and laboratories. Some of the investigators are representatives from American industry who are traveling on their own companies' expenses, but whose findings will be made available to all.

Anyone interested in a German process or machine can get a copy of the appropriate report. Some 360,000 reports have already been sold to the public at the cost of reproduction.

To supplement the reports, actual machines are often brought to the United States for evaluation by American experts.

Last month several thousand representatives of the American machine tool industry attended a month-long exhibit of outstanding German machine tools at the Frankford Arsenal, Philadelphia.

**SOME TOOLS**, it is believed, will suggest modifications in American machine tool practice. One precision grinding machine that attracted major interest has a novel optical system which enables the operator to compare his work with the engineer's drawing as the work proceeds.

Among the items brought back last year is the magnetophone, a portable record player and recorder which uses magnetized paper tape instead of conventional discs. American firms are now producing this type of recorder.

Another device is the photophone, which transmits sound over a diffused light beam or over an extremely narrow beam of white, red or invisible infra-red light.

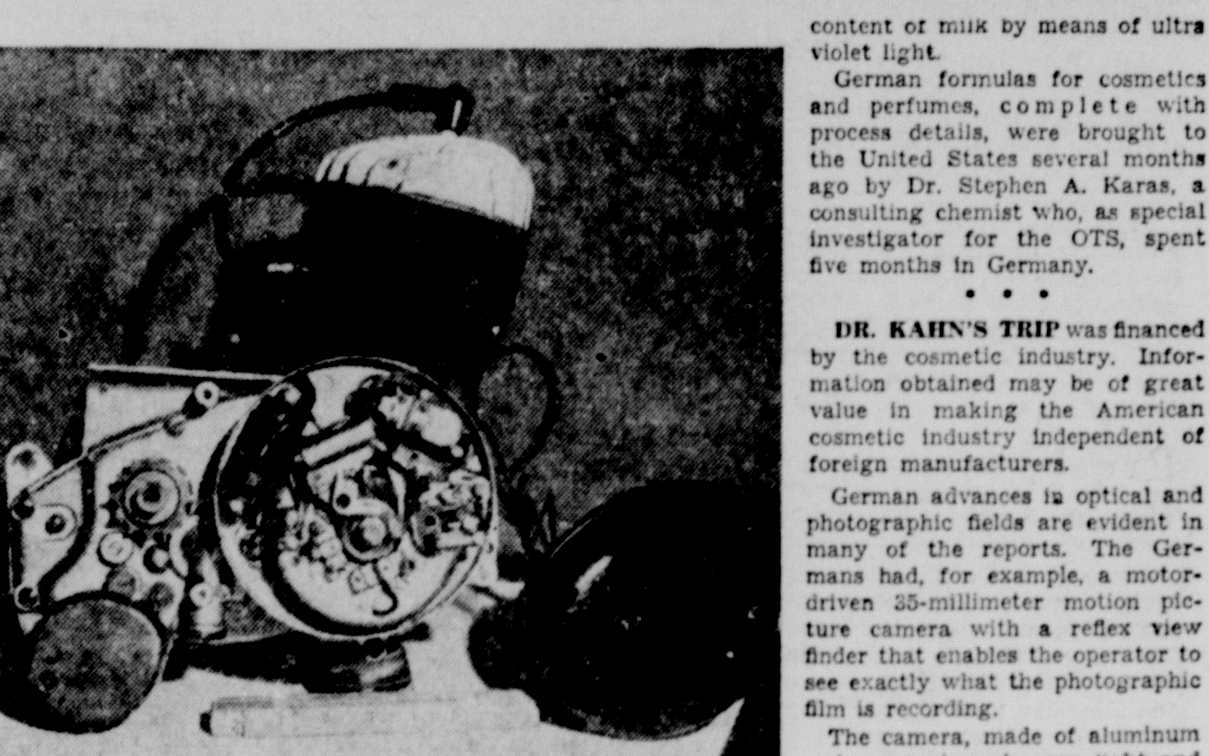

It was used for short distance communication especially over rivers and valleys where telephone wires could not be laid. The instrument resembles a pair of oversized binoculars. The Germans found it valuable, because, unlike the radio, it cannot be intercepted.

Thousands of reports reflect German automotive and aeronautical progress. Lloyd D. Worden, chief of the automotive and aeronautics unit of the OTS, stated recently that full production of the German Volkswagen, or people car, might have had a marked effect in the world automobile market.

The Volkswagen is a two-door coach with a four-cylinder air-cooled engine located in the rear.

**PHOTOPHONE**—This German device was used for voice communication over distances up to five miles over a beam of white, red or invisible infra-red light. Edwin Y. Webb demonstrates its workings.

**SMALL BUT MIGHTY**—A German motorcycle engine showing 125 cubic centimeter motor and complete electrical system in a six-inch casing.

The car is about 14 feet long and weighs only 1,500 pounds. Hitler ordered the car designed in 1936, specifying that it should be made to sell for less than 1,000 Reichsmarks (\$400).

Manufacturing plans were in an advanced stage just before war broke out, with the plant scheduled to turn out 1,000 cars a day.

After war began, the Volkswagen became the German jeep. The plant is now producing several thousand cars a month under British supervision.

For military purposes the Germans built several lightweight motorcycles, the motor of one being so small that its entire electrical system fitted into a 6-inch round casing.

Constant threat of a possible food shortage led the Germans into extensive food research on substitutes.

One of their developments was synthetic butter made from chemicals. One firm made 11,000 pounds a day. Most of it was sold to hospitals where it was favored for certain diets.

German researchers also succeeded in simultaneously pasteurizing and enriching the vitamin D

executive quoted a report made by liquor director Dale Dunifon giving the inventory as of May 31 at \$56,731,631.

"When I left the governorship," Lausche said in his statement, "the state had on hand, in stores and warehouses, \$25,611,144 worth of liquor, and had on order, to be delivered, liquor in the value of \$13,535,830, making a total of \$39,146,975.

The highest iron mines in the world are in operation in the Pamir mountains, in Soviet Central Asia. They are reached by a gorge-scaling funicular railway that rises 8,200 feet in 15 miles.

Lausche said he would like to know how much has been added under Republican Gov. Thomas J. Herbert, who ordered the probe.

## LAUSCHE CALLS FOR IMPARTIAL LIQUOR PROBE

**CLEVELAND, July 23**—Former Gov. Frank J. Lausche asked today in Cleveland that probers investigating the state liquor department seek to answer two questions.

Calling for an "objective, impartial" investigation in the interests of citizens, Lausche said he thought they should know why liquor supplies have been increased by more than \$17,000,000 since he left office if his department had overstocked.

He also asked that figures be released showing how much slow-moving supplies, especially liquors, brandies and rums, his department inherited from the previous administration of Republican Gov. John W. Bricker.

Lausche said he would like to know how much has been added under Republican Gov. Thomas J. Herbert, who ordered the probe.

GRAB BAG

**One-Minute Test**  
1. What name is carried by more U. S. counties than any other?  
2. Who was the first president of the Continental Congress?  
3. Which of the United States possessions was once known as "Sevard's Folly"?  
**Words of Wisdom**  
Good will, like a good name, is got by many actions, and lost by one.—Jeffrey.

**Hints on Etiquette**  
For formal and semi-formal daytime weddings, a man wears an ascot tie, or four-in-hand in plain colors of blue, gray or black. He may wear stripes or figures in combination with white, light gray, blue or tan, or a bow necktie in the same colors.

**Today's Horoscope**  
A birthday anniversary today means that you are energetic, vivacious, and rather talkative. You are very fond of gaiety and social life and like to have an active part in anything you undertake. You are not demonstrative in your love and require affection and understanding from your mate. Today's influences are adverse. Don't commit yourself. Lack of harmony or sociability is indicated. Your fortunes and happiness in your next year will grow apace. Utilize the same fully. Court, marry and make new friends. Intellectual and social pursuits are well signified, also new business adventures. Today's child will exhibit great charm of manner and be a general favorite—probably a genius in one of the arts. A long, happy, successful life is prognosticated.

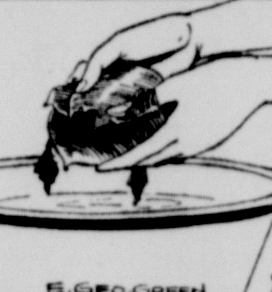

**One-Minute Test Answers**  
1. Washington, 29 states have counties so named.  
2. Peyton Randolph of Virginia.  
3. Alaska.

The government of New Zealand has just designed and approved the New Zealand Memorial Cross. It is to be given to mothers and widows of New Zealand servicemen who were killed or died in active service, or whose subsequent death was attributed to war service.

Leave It If he so desires.

A compact firm is interested in sponsoring "Leave It To The Girls".  
Groucho Marx is reported planning to become an independent radio producer.  
Hal Kanner is being discussed as musical director for Hildegarde's transcribed radio series.  
Kenny McCord, of the Broadway show "Brigadoon" may get the next buildup as a solo warbler.  
Dick Haymes returns to his show on Thursday, September 11.  
Bill Stern vacations from his "Sports Newsreel" on July 25 with Eddie Cantor, Frank Sinatra and John Garfield slated to pinch-hit for him.
